

***Disney's  
Valentine's Day***

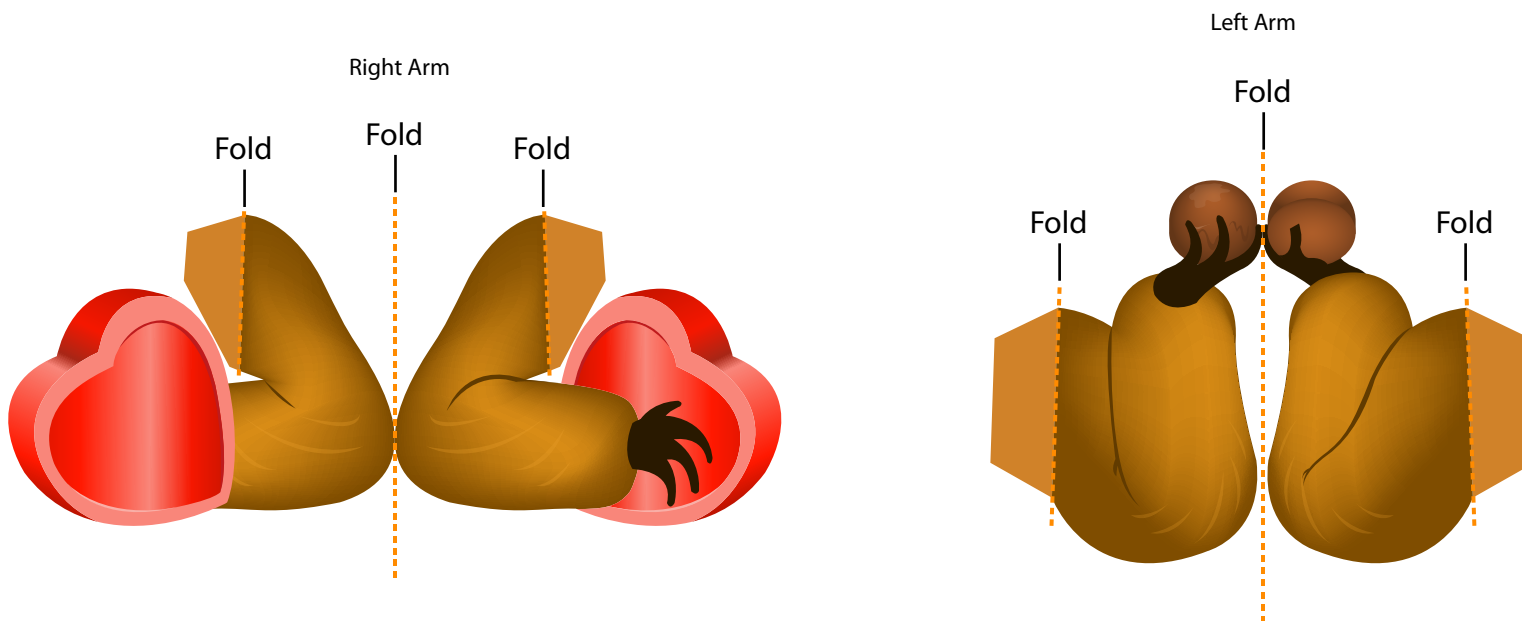

Teddy Bear Paper Craft: Bear & Ears

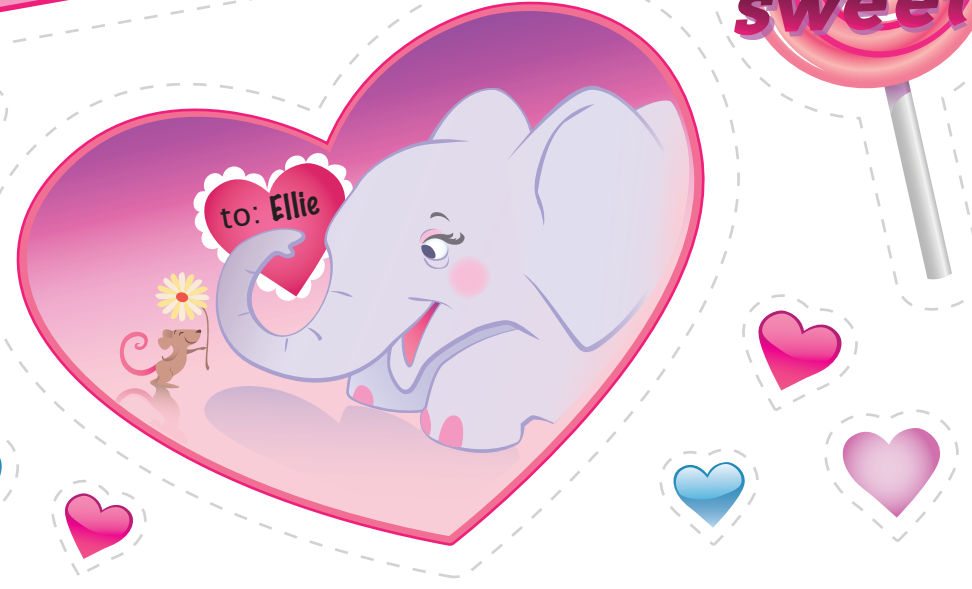

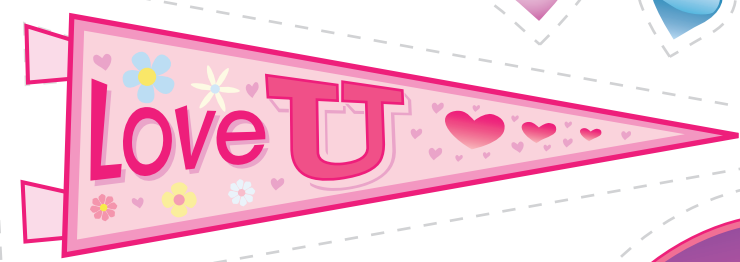

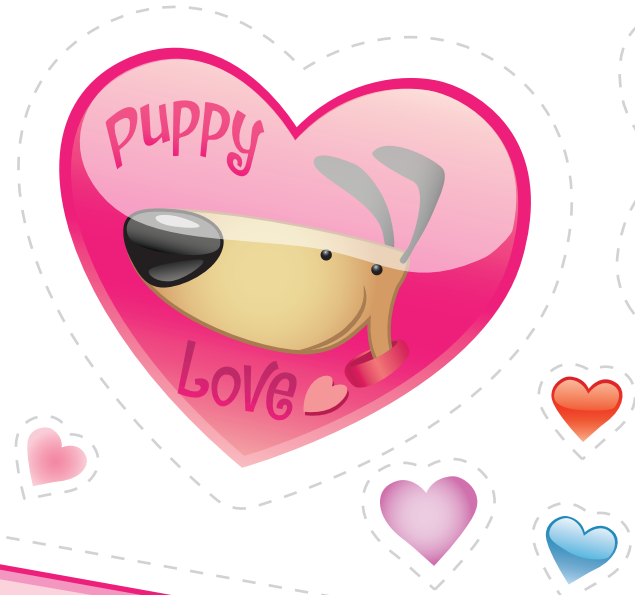

1. Cut out the Teddy Bear and its pieces. On the main character piece, make folds (away from you) along the dotted lines, including the tabs. Fold the legs toward you and the knees away from you. Glue tab A to the back side of the Teddy Bear's back. The character should be taking shape.
2. Put glue on the eight small tabs (four per side) that are located on each side of the top of the Teddy Bear's head. Then glue them to the back side of the Teddy Bear's head. Make sure you hold each tab in place for a few seconds before you move on. Next, glue tab B to the back of the side of the Teddy Bear's head.
3. Cut out the arms. Keep each connected in the middle and fold in half. Bend the tabs toward you, and then glue the back sides of the arm (leaving glue off the tabs) together. Be sure to not glue the tabs to each other. Once the arms are dry, put glue on the blank side of the open tabs and glue the arms to each side of the Teddy Bear. Use the same technique to cut out, fold, and glue the ears.

Your Teddy Bear character is now complete! Place him on the edge of a shelf or table, or give him as a gift.

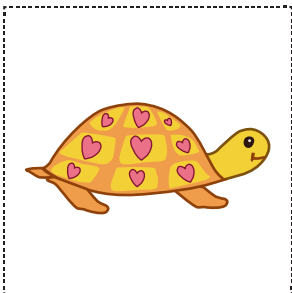

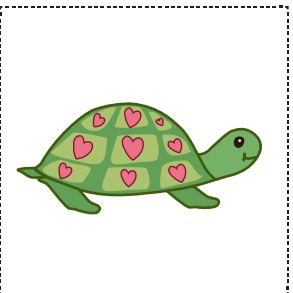

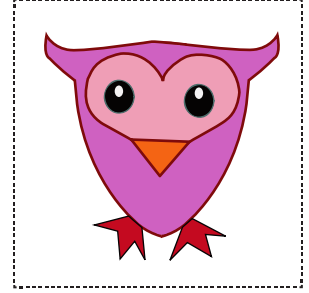

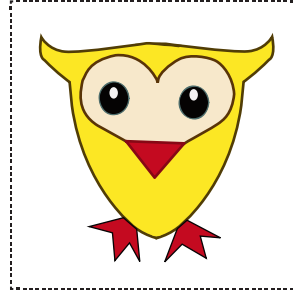

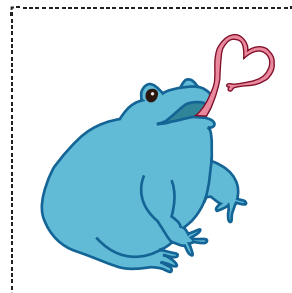

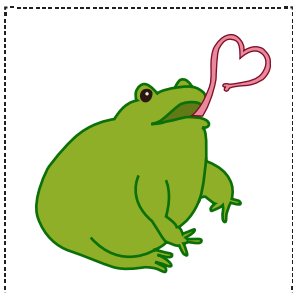

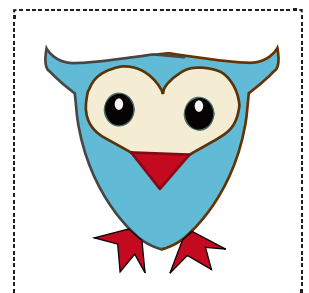

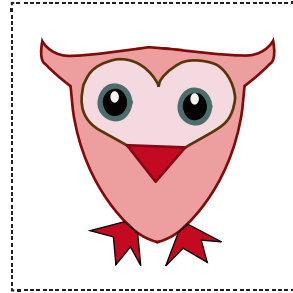

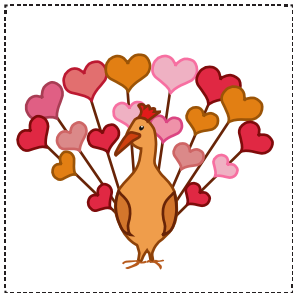

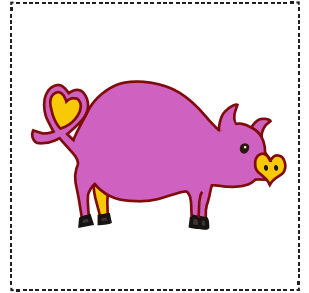

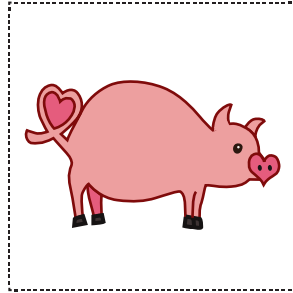

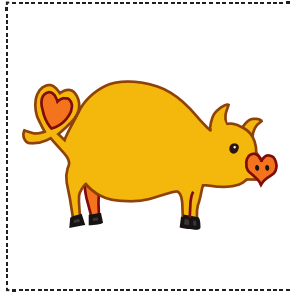

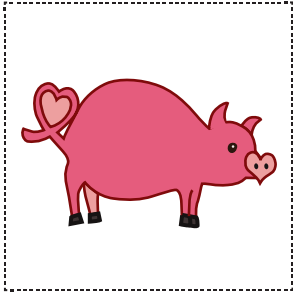

Instructions: Print out these images on sticker paper. Use them to decorate cards, goodie bags, and more.

# Valentine's Day Cards

Print out the Valentine's Day cards on regular paper or cardstock. Your kids can cut them out, fill them out, write a special message, and then hand them out to their classmates.

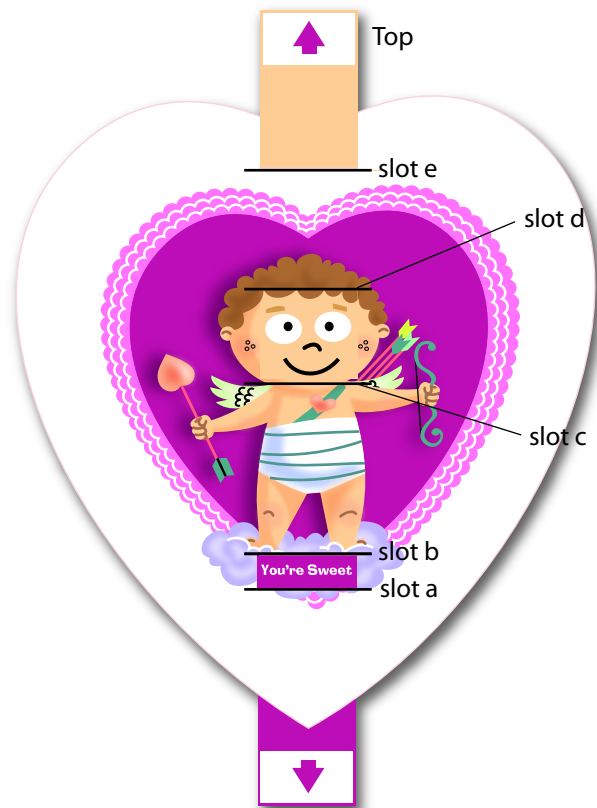

Print out the Cupid card and the message strip on regular paper. Using a craft knife, make the cuts for the five slots (a-e) located down the center of the card. Make sure the slots are as wide as the message strip because you will be “threading” the message strip through the slots.

Start by inserting the top of the message strip into **slot a**, from the front of the card to the back. Continue threading the strip up the center of the card, inserting it into **slot b**, from the back to the front, into **slot c** from the front to the back, and so on until **slot e**. Now, slide the strip up or down to change Cupid’s face and his message.

## Valentine's Day Pop-Out Card - String of Hearts & Instructions

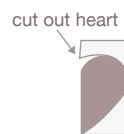

1. Print out your card and “string of hearts” on regular paper. Cut out the card and the “string of hearts.” Fold the card widthwise first, then fold the card a second time, lengthwise. The inside of the card should feature the words “I” and “You”.

2. To create the “string of hearts,” start by folding along the first dashed line on the left so the half heart is showing like it is in the diagram. Now, work your way along the “string” by making a fold at every dashed line. The second half of a heart should fold under the first and so on, creating an accordion fold.

3. Once your hearts are folded, cut along the shape of the half heart on the top and the bottom of the accordion fold. Make sure you keep it connected to all the other hearts via the right side of the fold. When you open your string, the hearts should all be connected. You may need to trim away any extra white paper.

## Valentine's Day Pop-Out Card - Instructions Continued

---

4. You won't need the half heart on the left side of the string; cut it off along the fold. Now, tape or glue the left half of the leftmost heart to the inside of the card, on top of the grey heart marker on the card. Tilt it slightly to the right before the glue dries to create a bowing effect. Now, glue or tape the right half of the rightmost heart to the inside of the card over the other grey heart marker. Tilt it slightly to the left. Next, neatly fold your hearts and close the card. When the card is opened, the hearts will stretch out and pop forward.

Cut off extra half heart

5. Add a personal greeting and your card is ready to be presented to someone special!

Print out the cards on card stock.

CARD STOCK HEART  
FOR MESSAGE

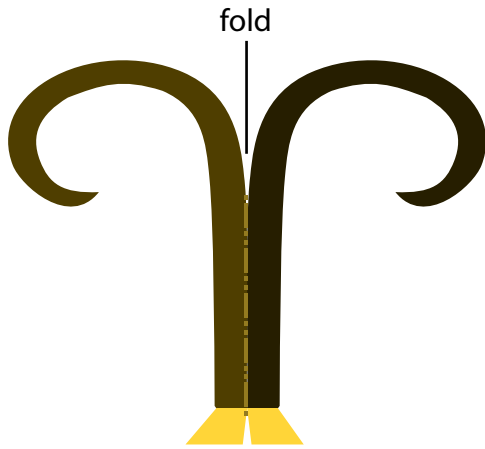

BUG WINGS

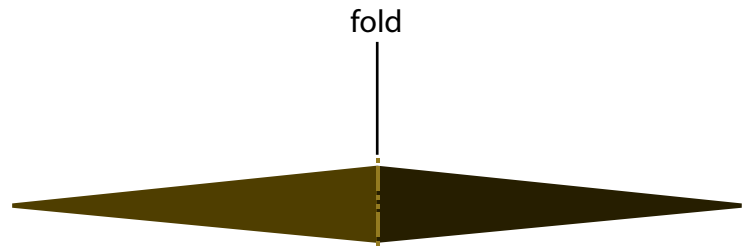

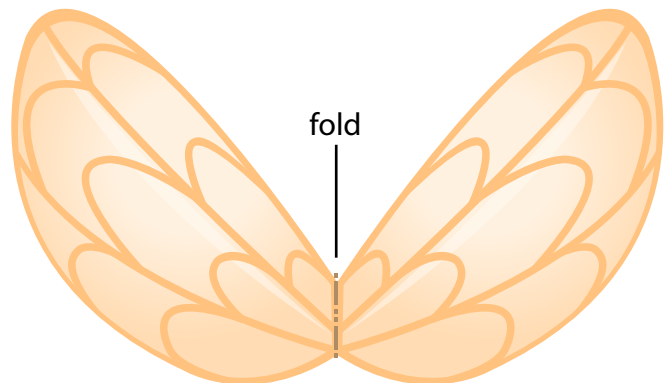

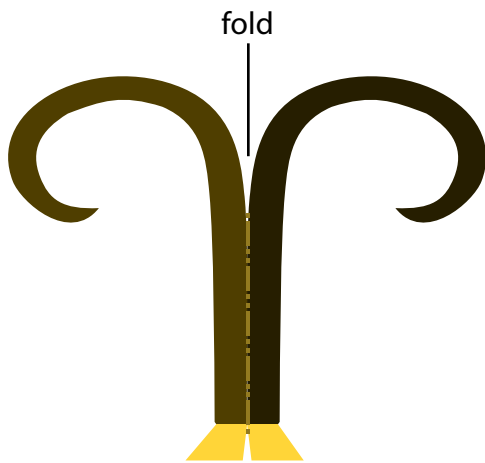

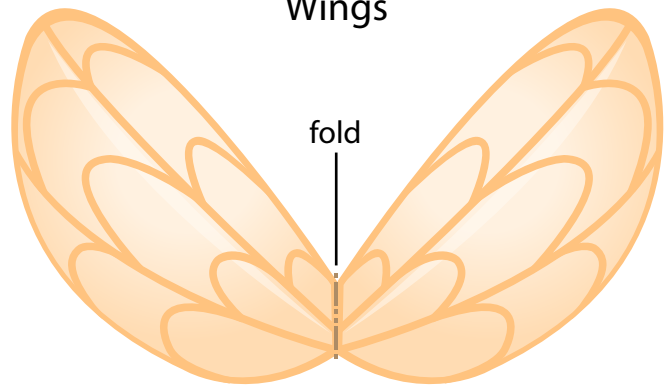

Antenna

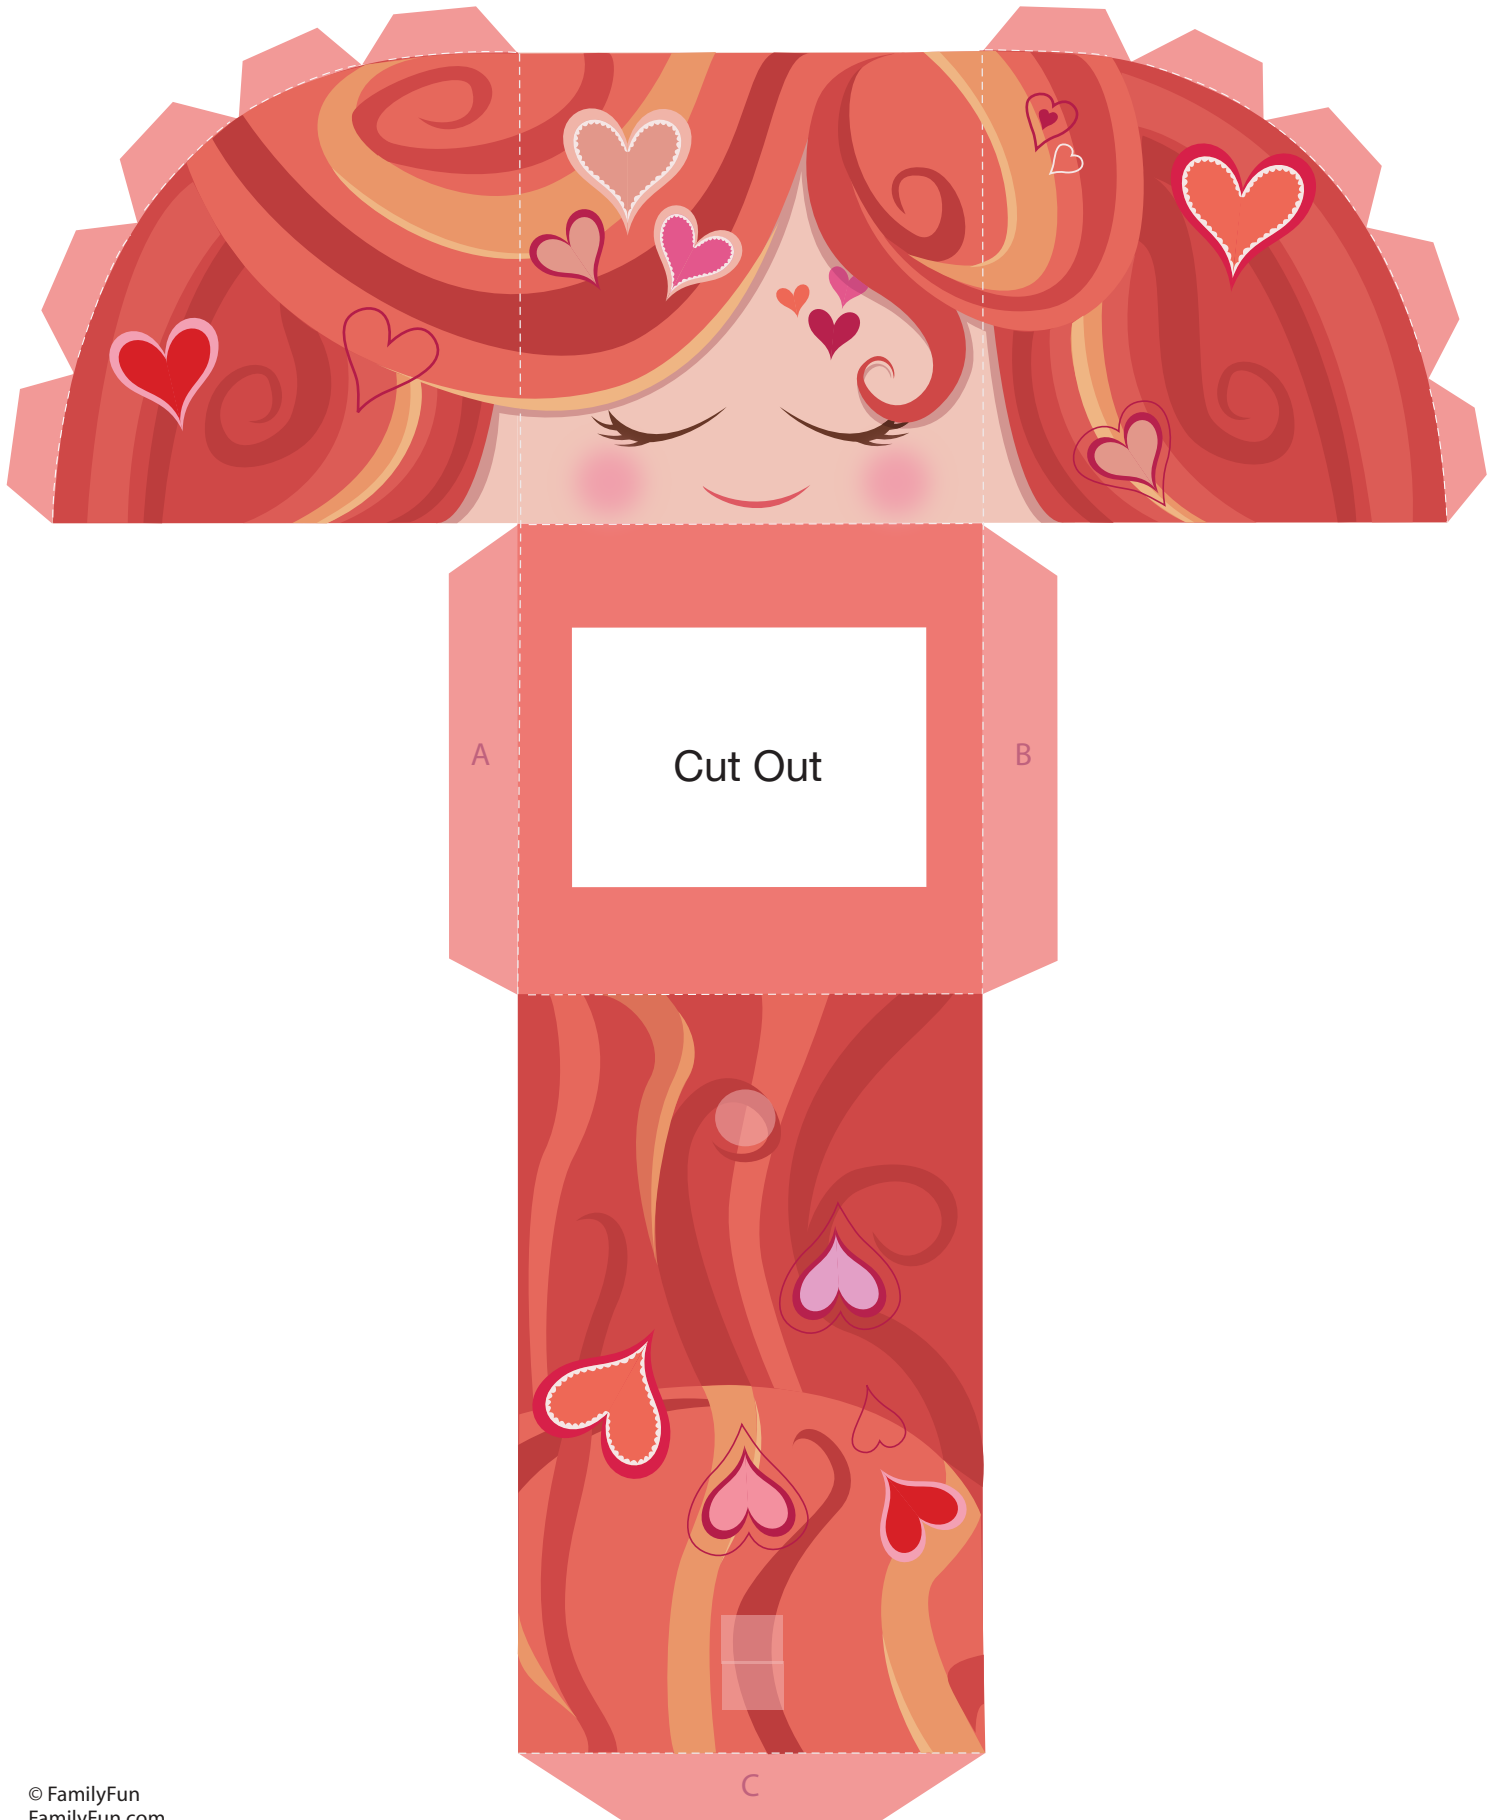

Stinger

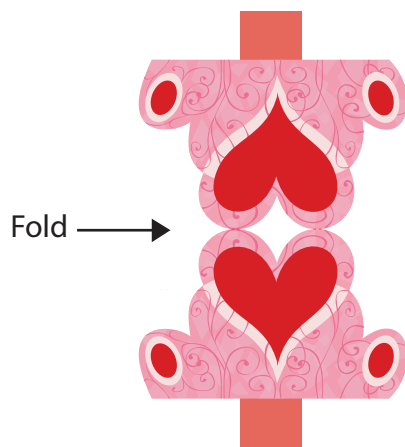

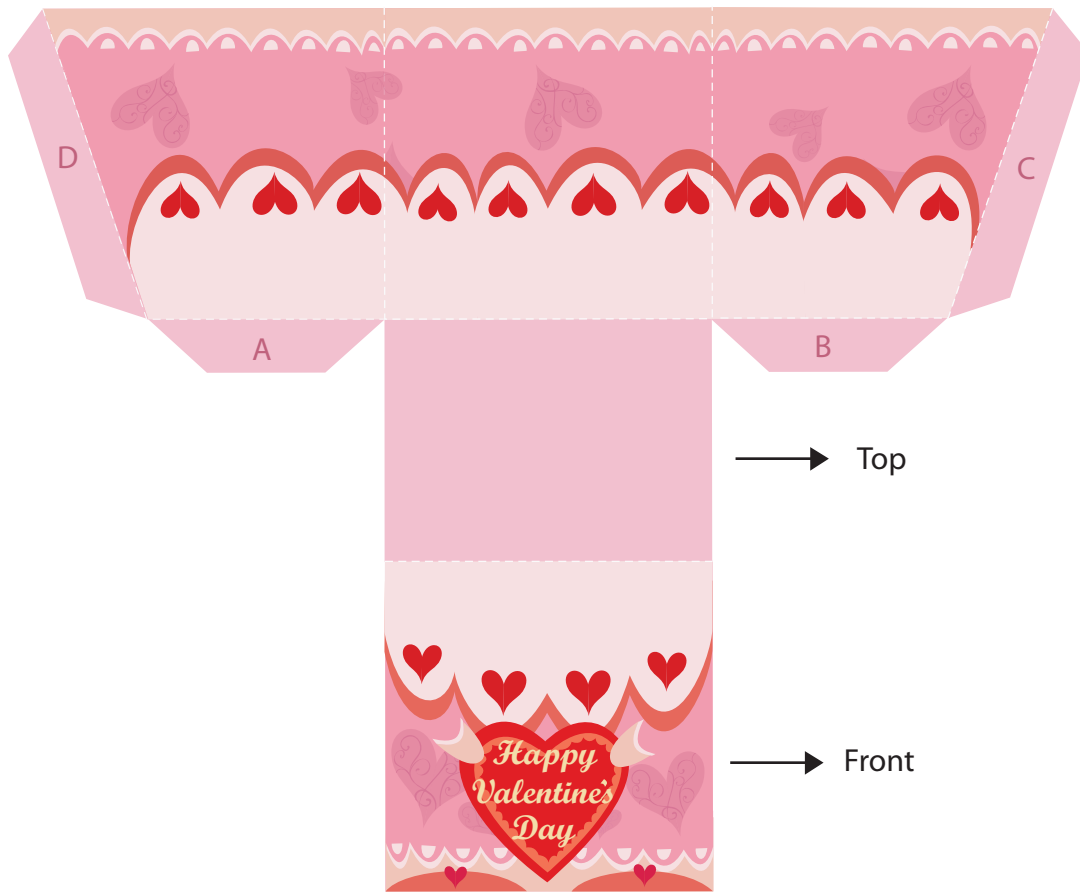

Wings

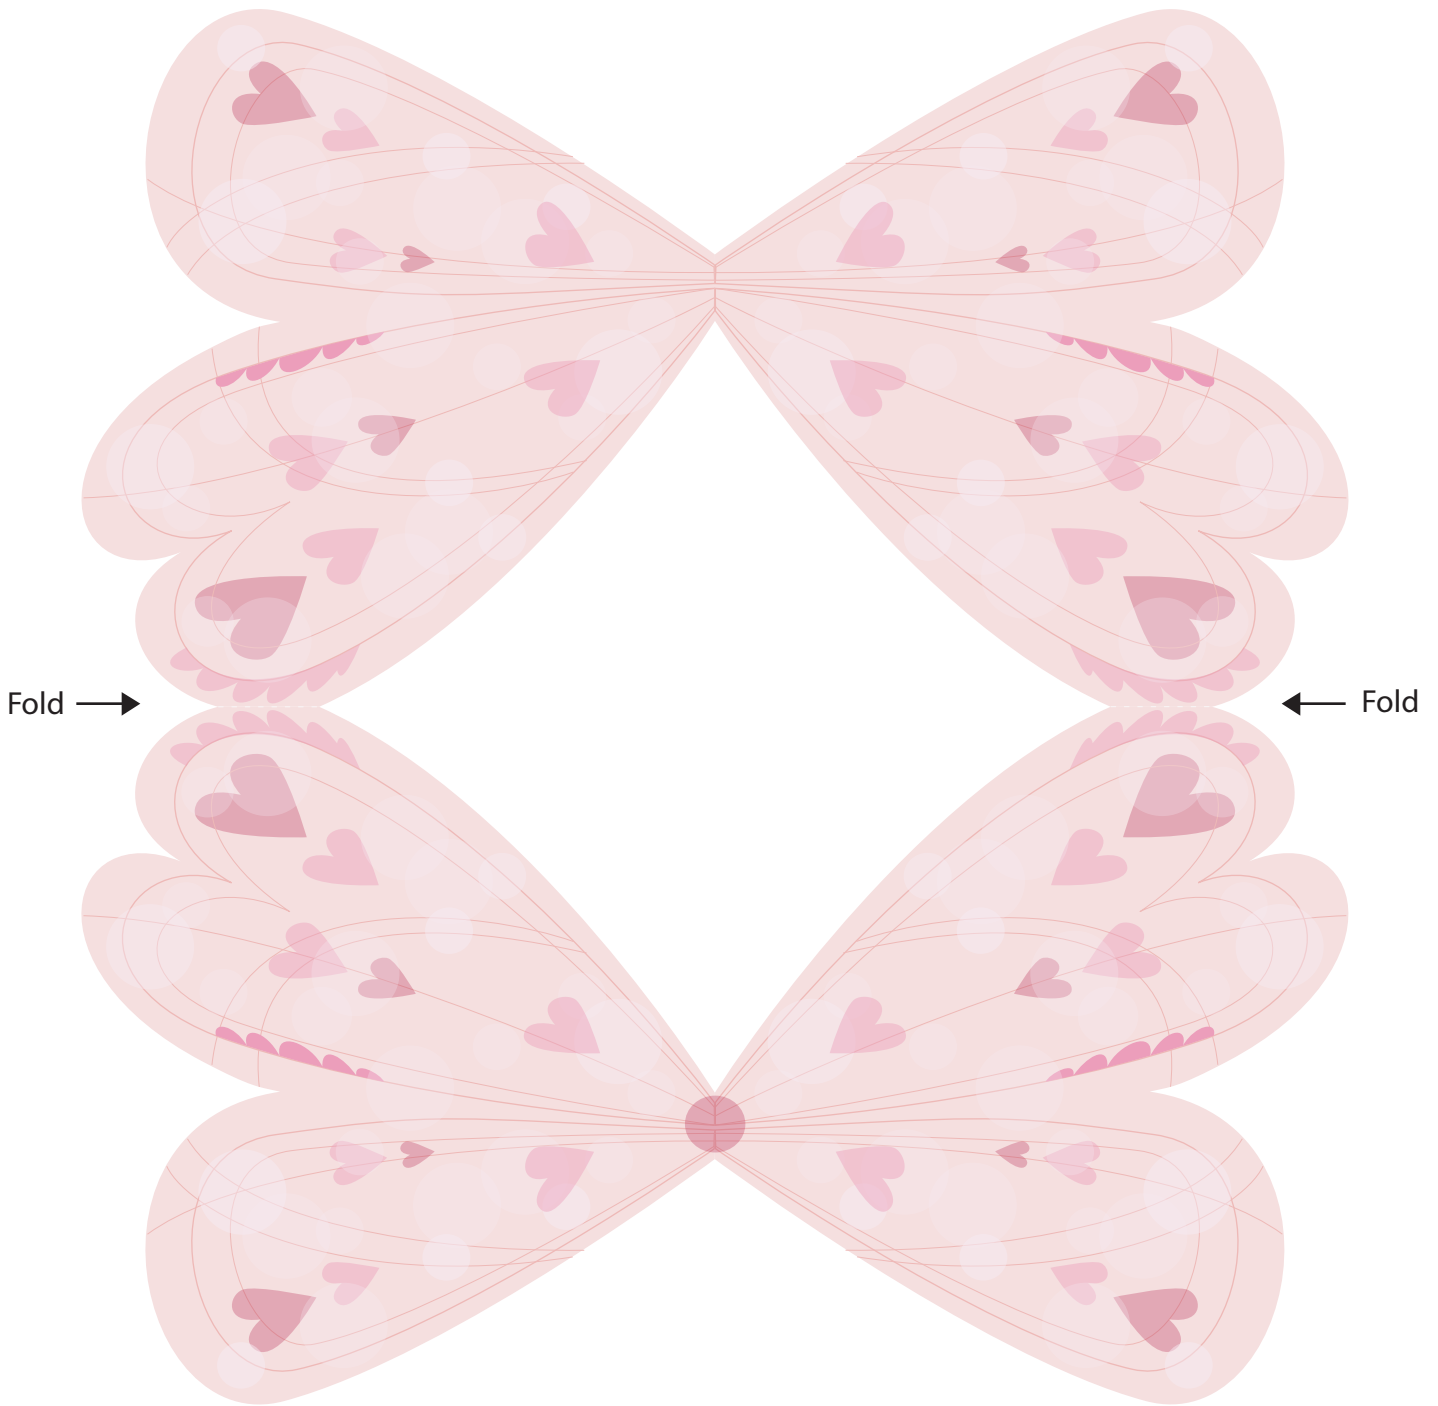

1. Cut out all of the parts of the bee, including the body, arms, stinger, wings and antenna. Using a craft knife, cut along the dotted lines on the bee's backpack. This will create a triangular flap that will help you glue the bee together. This is also where you will drop a piece of candy once y
2. Take the bee body and make the four indicated folds away from you. Next, fold all of the tabs, on the bee body away from you.
3. Start gluing the tabs (on the top piece) to the back side of the bee. Next, glue tab A (on the bottom) to the side of the bee, tab B to the front of the bee, and finish with tab C and D. Insert your finger through the opening in the backpack to glue the rest of the tabs on the other side of the top piece to the front of the bee. Fold the bee's legs once towards you so that he can "sit".
4. Fold the arms and antenna in half. Fold the tabs on each of those pieces so that they can be adhered to the bee's body with glue. Fold the stinger in half and attach the wide end to the bottom of the bee with glue. Lastly, fold the bee's wings in half and attach them (with glue) to the back side of the bee. Your Valentine's Day bee is complete!
5. Drop a piece of candy in the bee's backpack and make a special delivery!

Tiara

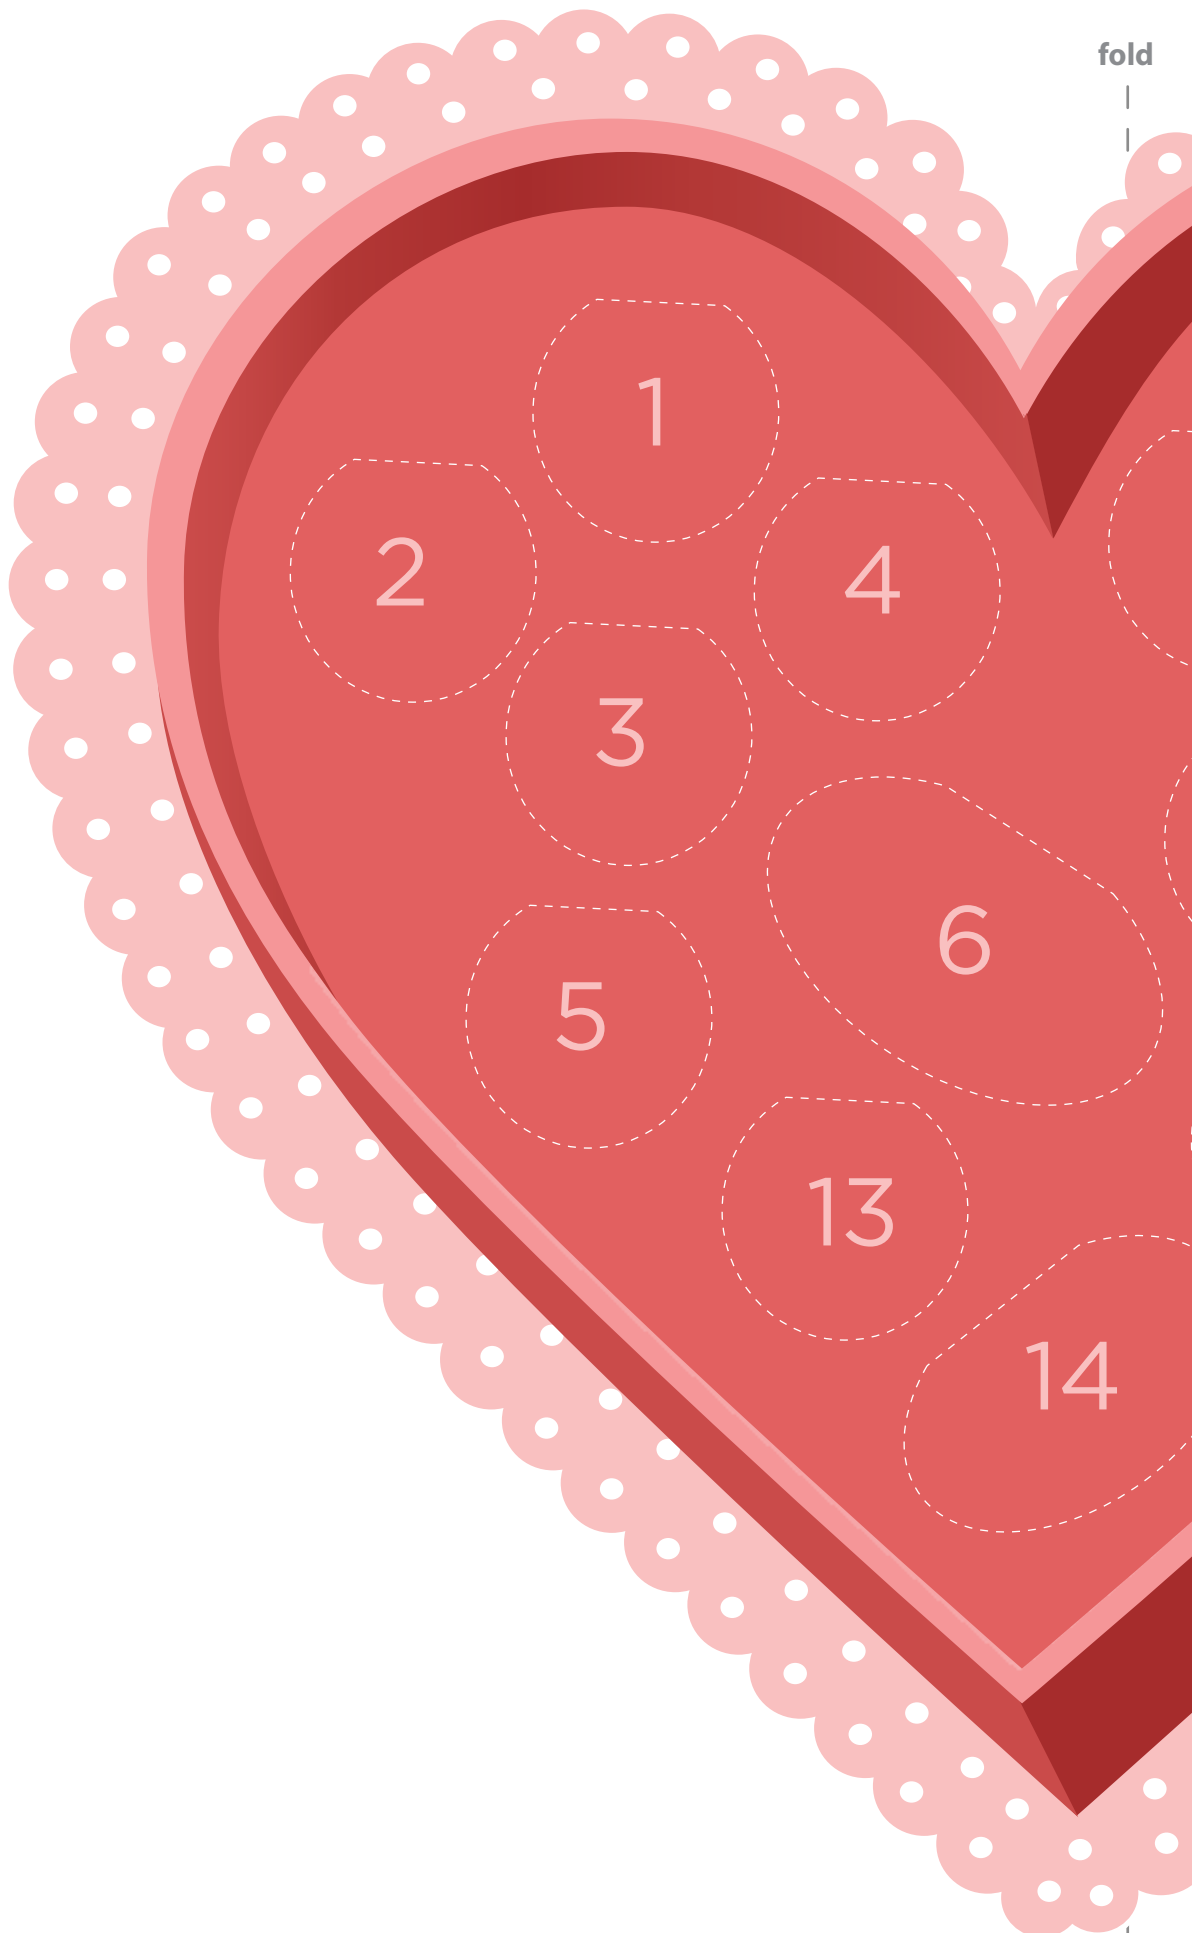

1. Cut out the top of the messenger. Use a craft knife to cut out the white space in the middle of the piece. Make folds (away from you) along the white dotted lines, including the tabs. Glue the sides of the Messenger's head to tabs A and B. Next, put glue on the 10 small tabs (five on each side) on the side of the Messenger's head, then glue the back of the head to them. Glue tab C to the top of the Messenger's head so that the top piece is complete. Make sure that you hold each glued part in place for a few seconds before moving on to the next tab.
2. Cut out the bottom part of the Messenger. Make folds (away from you) along the white dotted lines, including the four tabs. Glue tabs A & B underneath the top of the bottom piece. This piece should almost be taking a box shape now. Glue tabs C & D behind the front and your shape will be complete.
3. Cut out the tiara. Keep it connected at the top of the heart and fold in half. Bend the tabs towards you and glue to the top of the Messenger's head.
4. Fit the bottom piece into the top of the Messenger so that character is nearly complete.
5. Cut out the wings. Keep the wings connected at the top and fold in half. Put glue on the pink dot in the center of the wings and then attach the wings to the back of the Messenger's head.

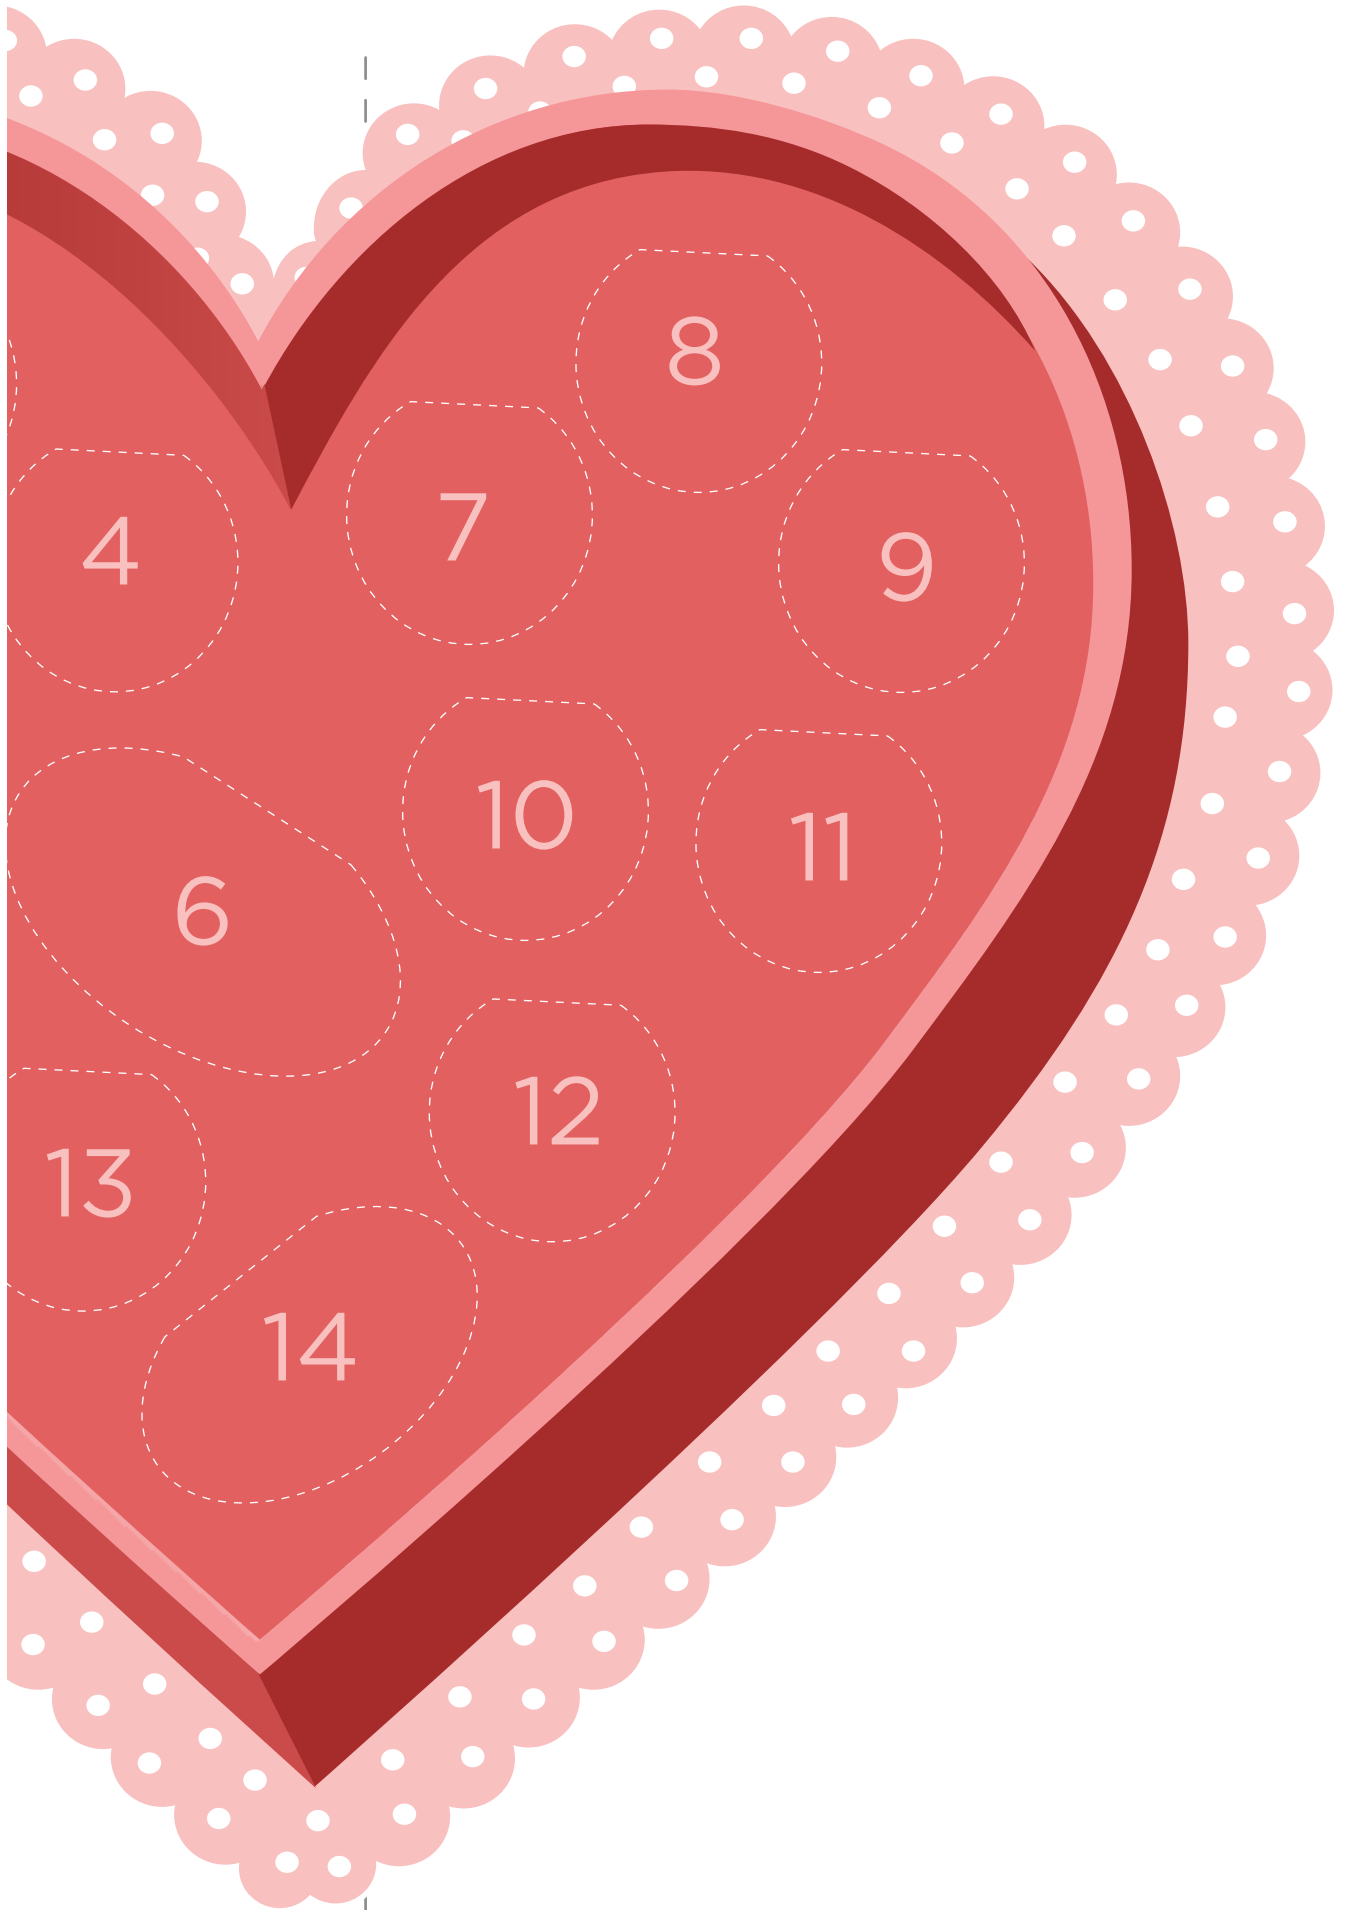

Your sweet Valentine's Day Messenger is complete. Give it as a gift to a friend or family member.

fold

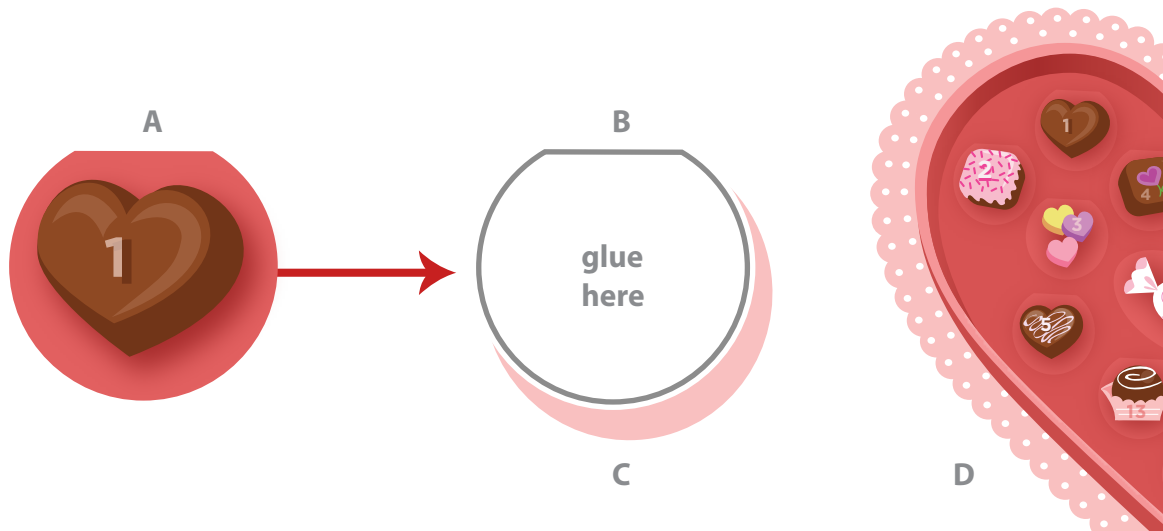

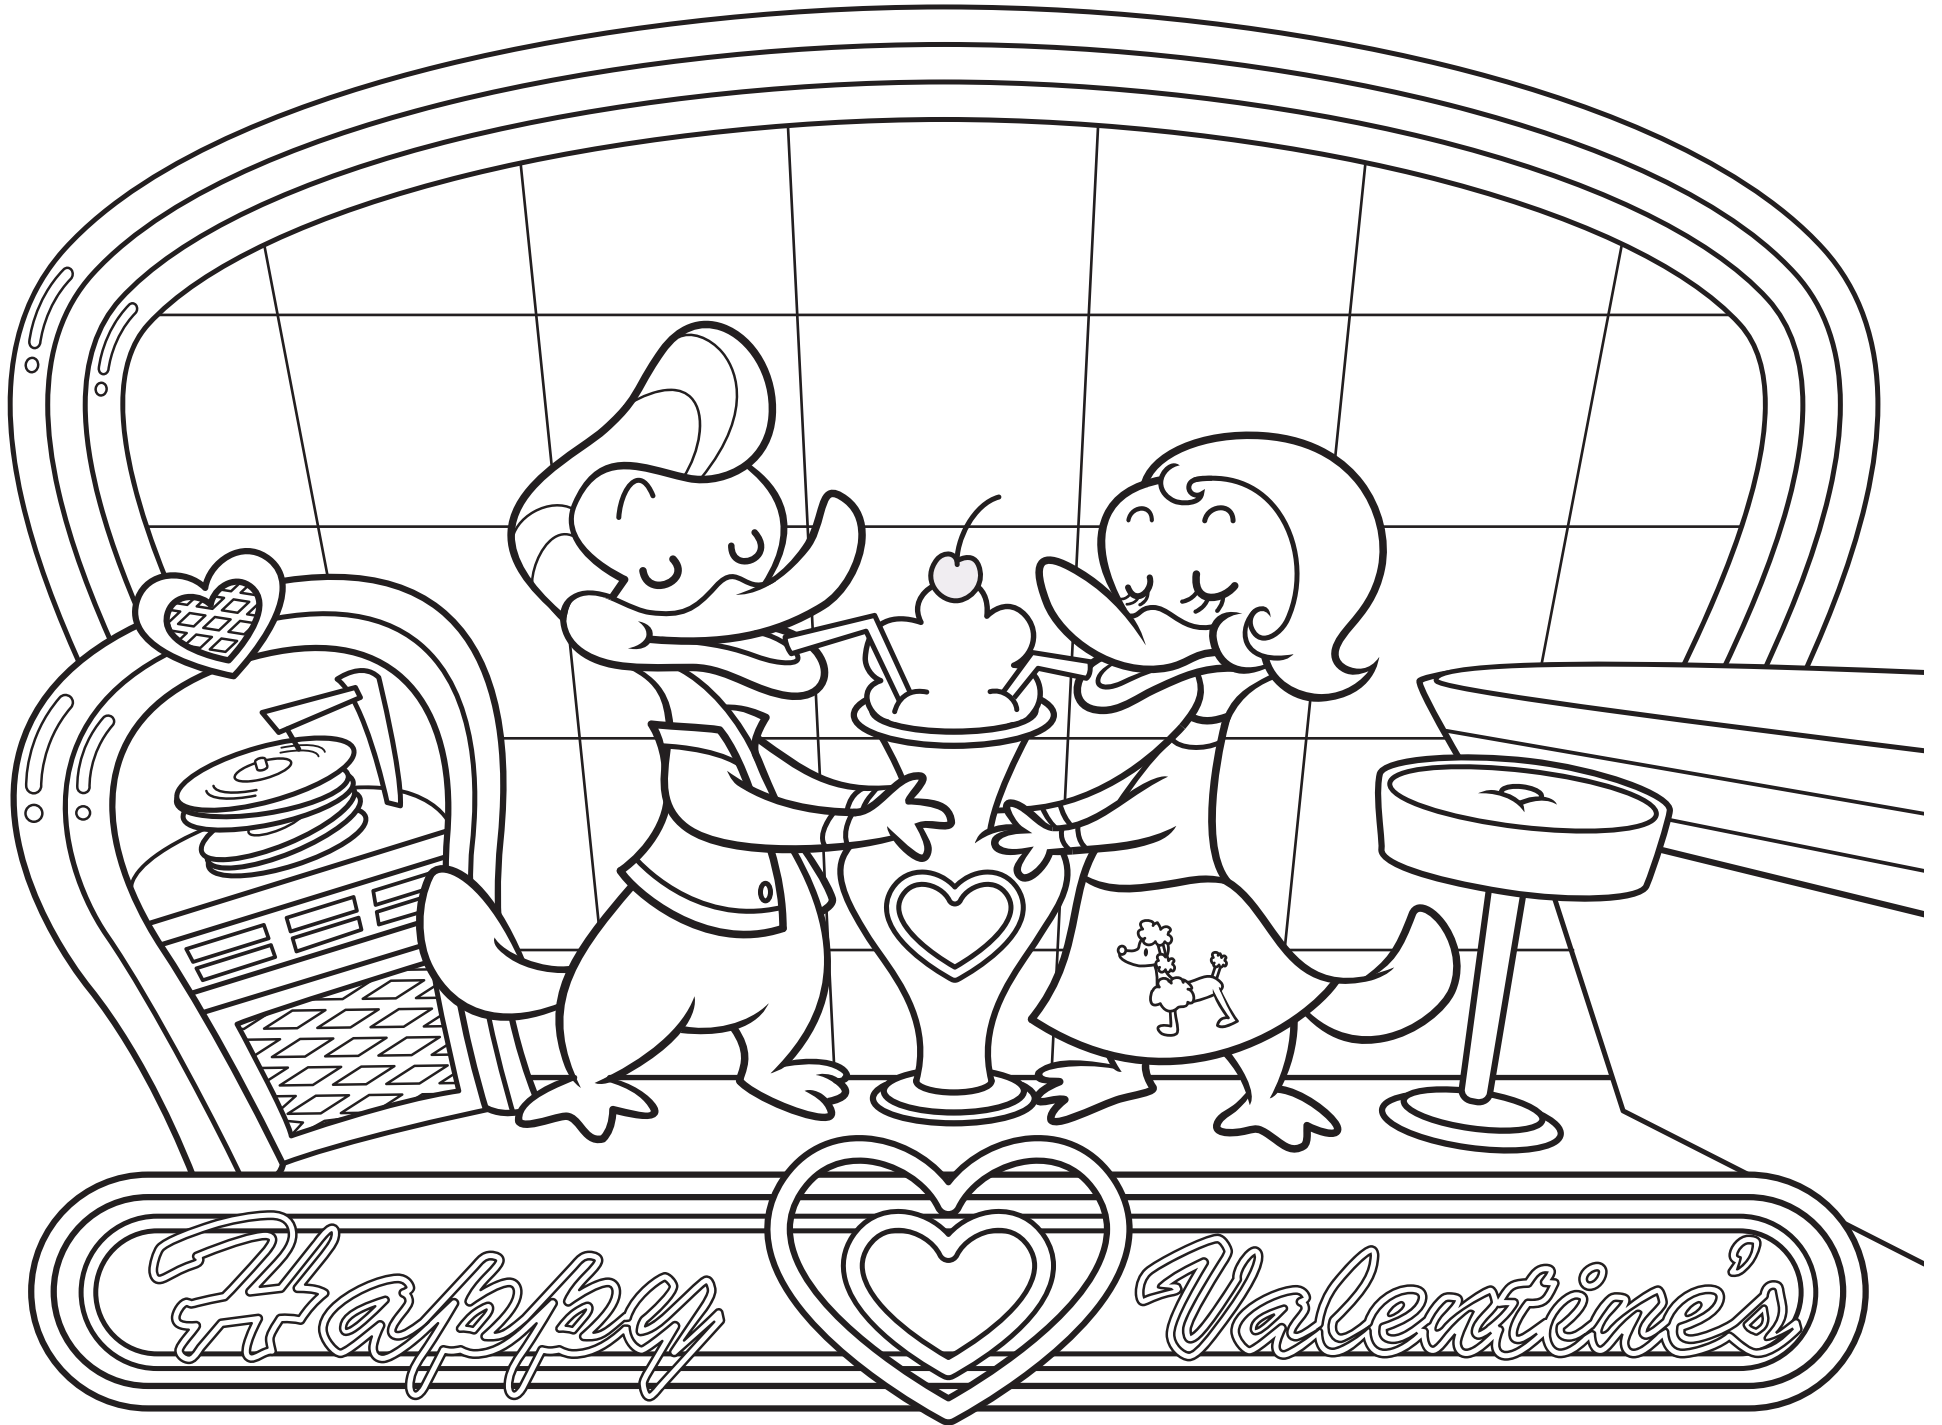

**Step 1:** Print out the two chocolate box PDFs. Using the left part of the heart, fold along the dotted line. Glue or tape the left half of the heart to the right half.

**Step 2:** Print and cut out the activities for the chocolate box. (Parents should cut out the activities so the kids will be surprised as they open up each date.)

**Step 3:** (See diagram below.) Fold the activity circles in half at the indicated point. On the front of each activity, paste or tape the appropriate chocolate (A to B). Be sure to match the number on the chocolate with the number on the activity. Next, paste or tape the entire card (C) to the corresponding number on the chocolate box (D).

**Step 4:** Attach a stick-dot sticker (found at local craft stores) to each circle to keep it closed until that day when your child will peel off the sticker and read the activity underneath. Have fun!

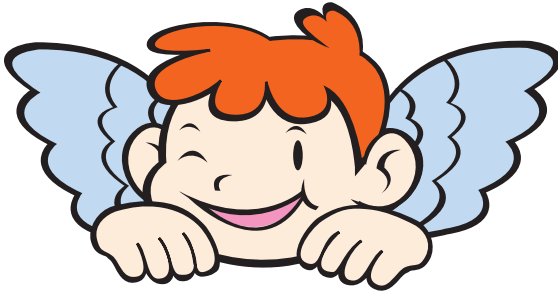

# Find the Matching Cupids

Find the two cupids that are exactly alike.

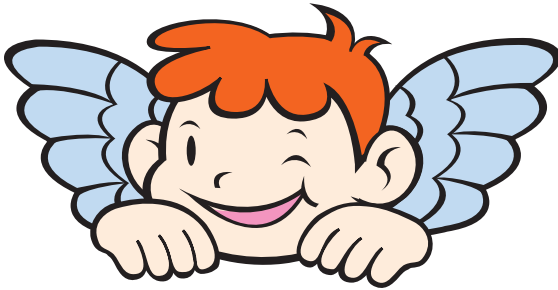

1.

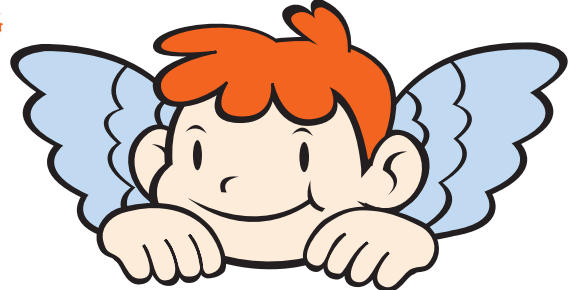

2.

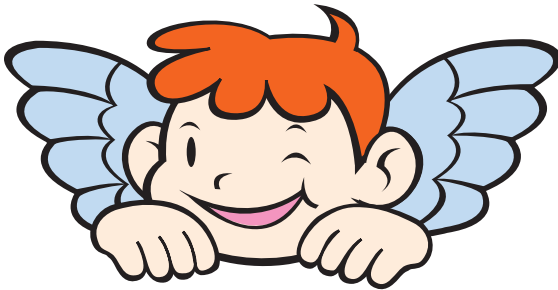

3.

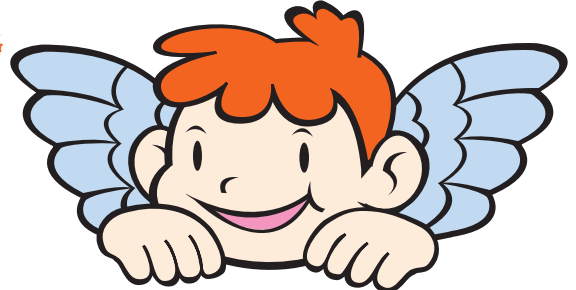

4.

5.

6.

7.

8.

# Play a Matching Game!

**Step 1:** Cut out all the pieces (grown-ups only).

**Step 2:** Place all the pieces on your playing surface (the blank side should be facing up). The object of the game is to find all the matching pairs of cards.

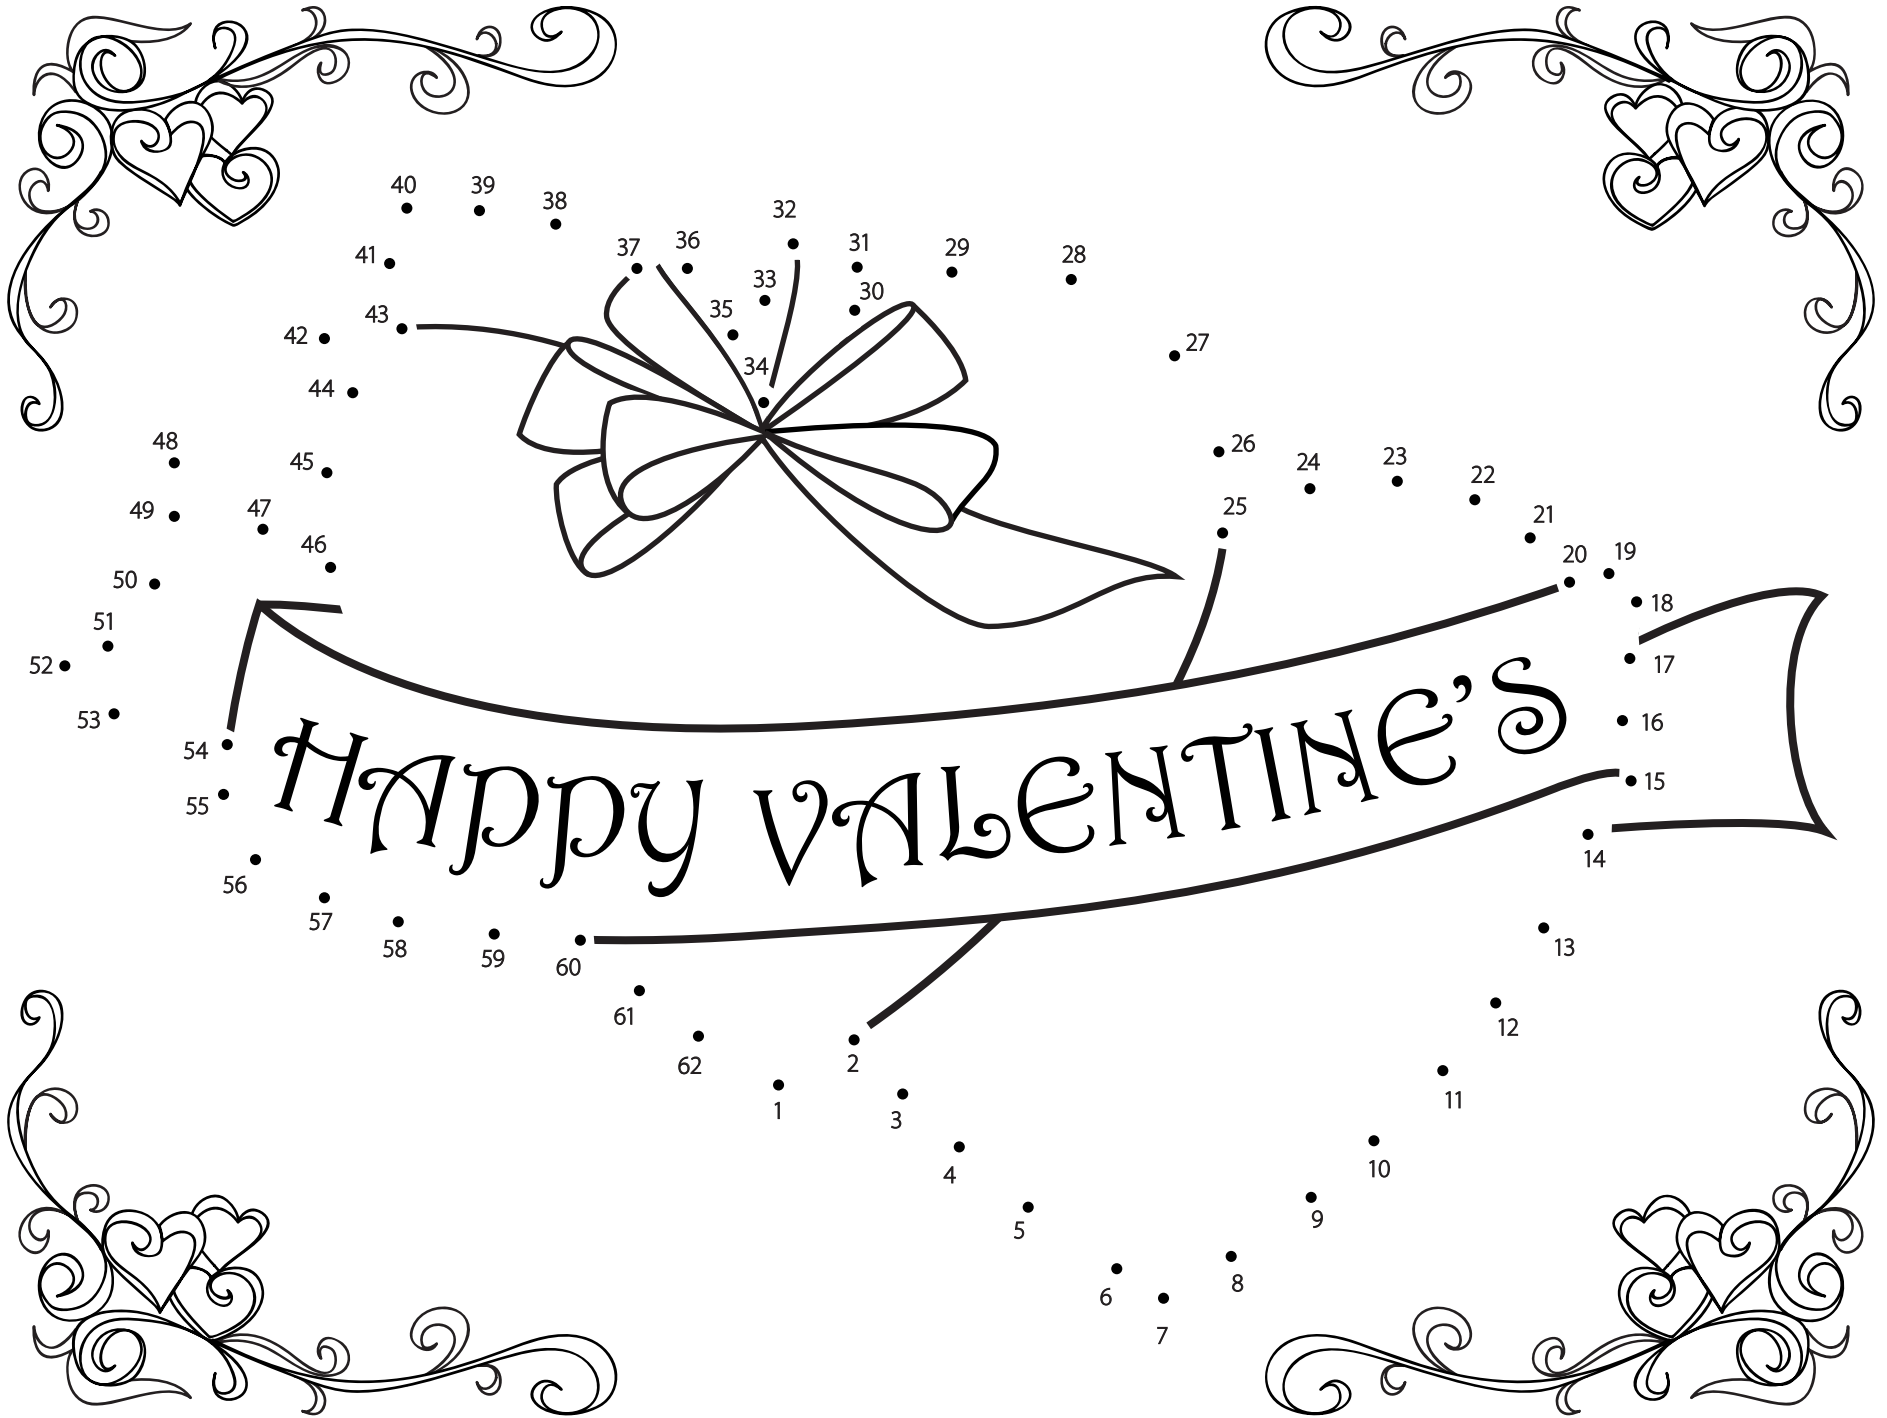

## Option 1: Playing by Yourself

Select two cards and turn them over. If both cards are the same, remove them from the game and continue playing. If the cards don't match, turn them over and try again. The game is over when you have matched all of the pairs and all of the cards are gone.

## Option 2: Playing with Two or More

The first player selects two cards and turns them over. If the cards match, they are removed from the board. Play continues until he or she turns over cards that don't match. Then Player 2 begins his or her turn. The game is over when all of the cards are gone. The winner is the player who has matched the most cards.

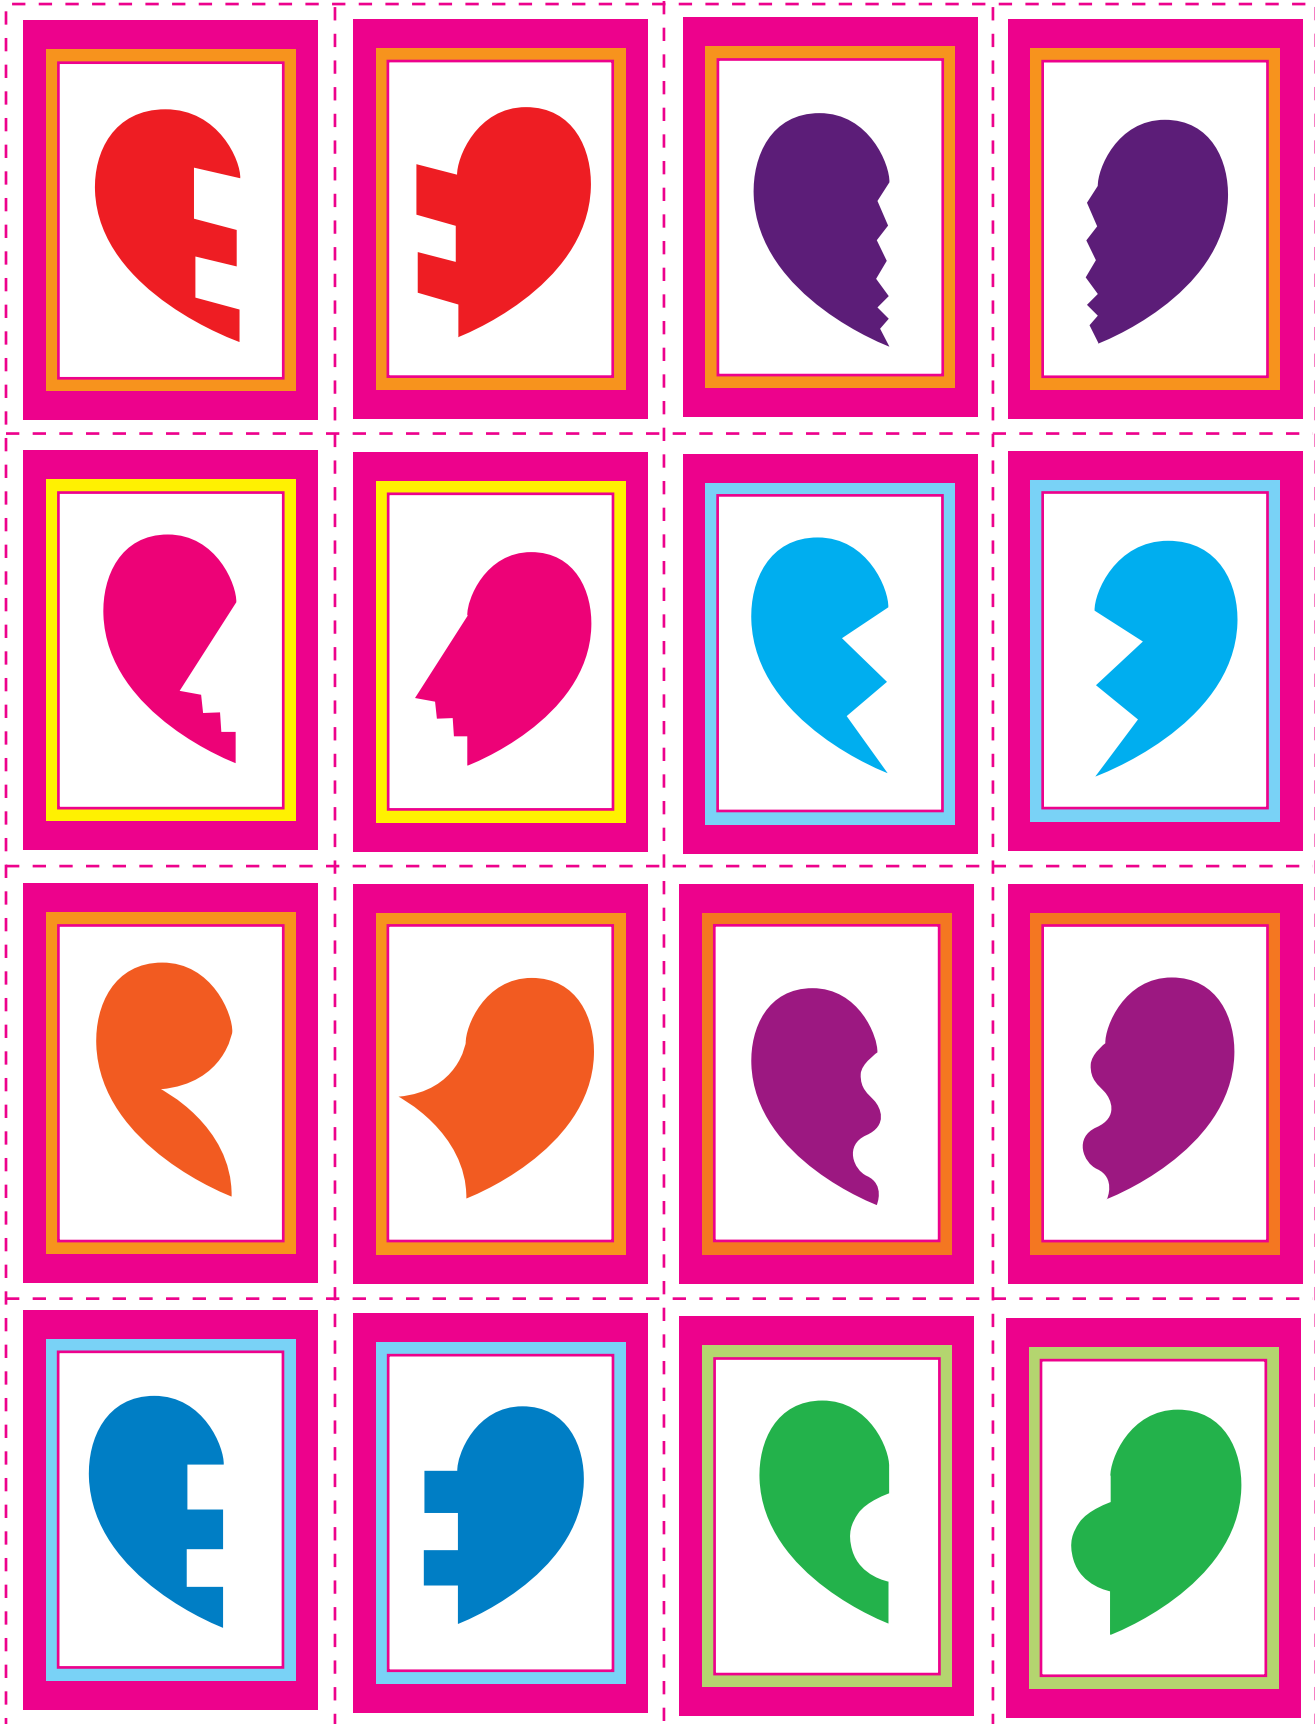

# Play a Memory Game!

**Step 1:** Cut out all the pieces (grown-ups only).

**Step 2:** Place all the pieces on your playing surface (the blank side should be facing up). The object of the game is to find all the matching pairs of cards.

**Option 1:** Playing by Yourself: Select two cards and turn them over. If both cards are the same, remove them from the game and continue playing. If the cards don't match, turn them over and try again. The game is over when you have matched all of the pairs and all of the cards are gone.

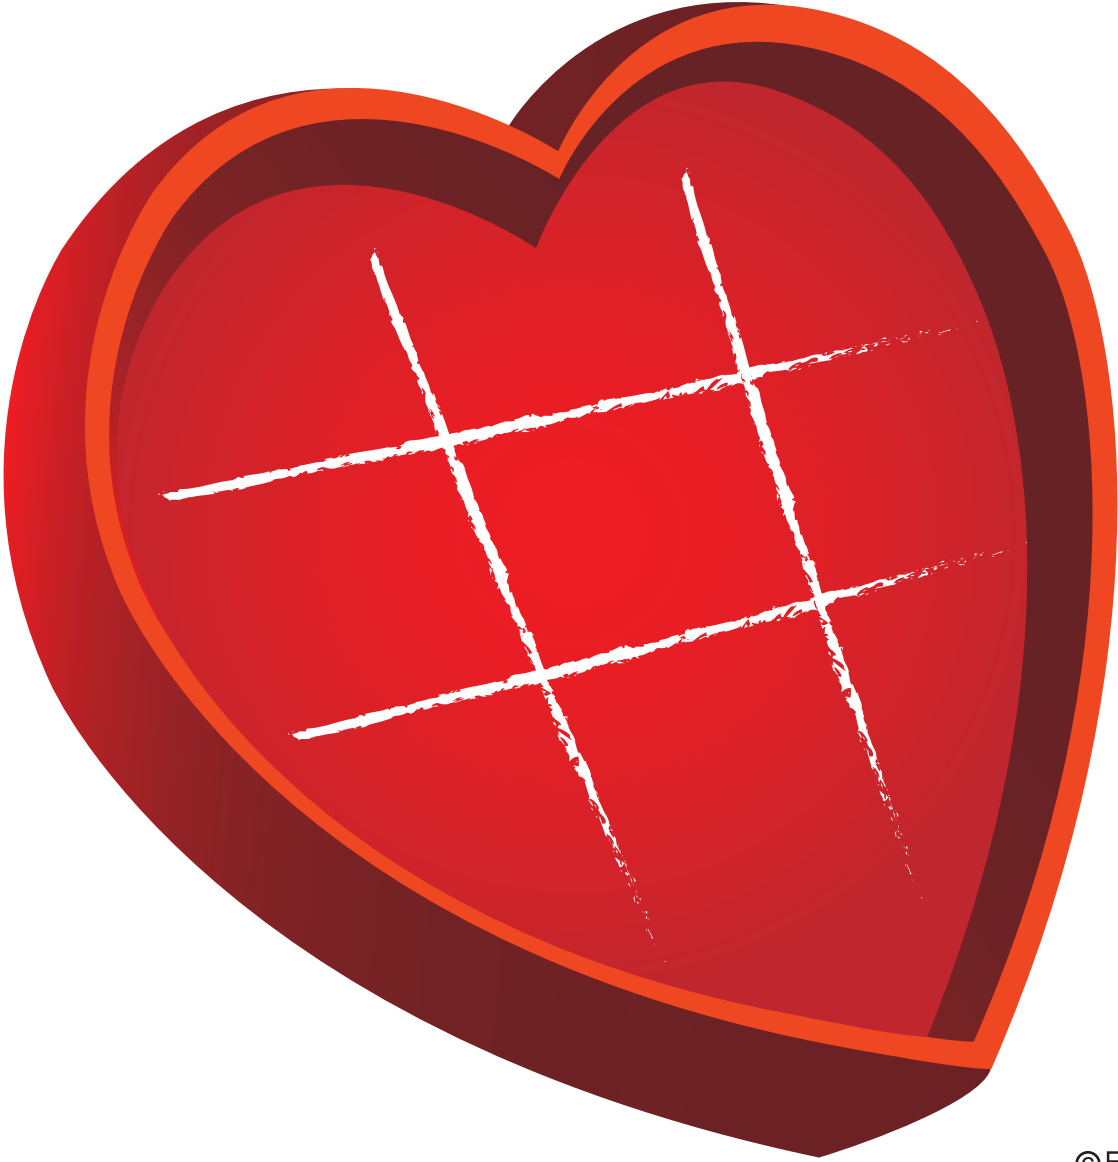

**Option 2:** Playing with Two or More: The first player selects two cards and turns them over. If the cards match, they are removed from the board. Play continues until he or she turns over cards that don't match. Then Player 2 begins his or her turn. The game is over when all of the cards are gone. The winner is the player who has matched the most cards.

# Chocolate Tic-Tac-Toe

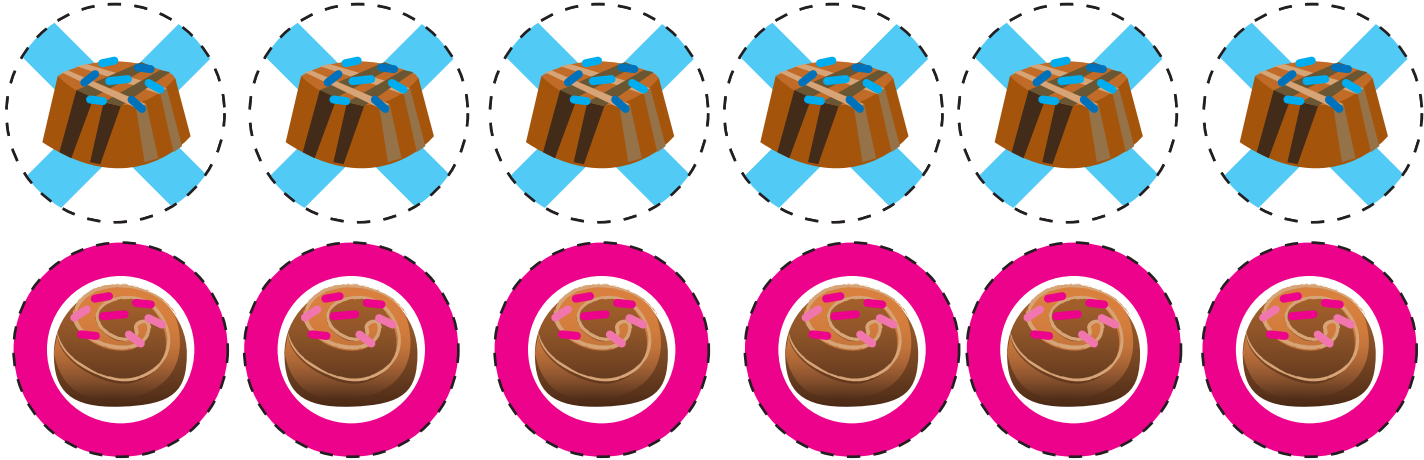

Cut out the chocolate X's and O's. One person places a chocolate X in a square, then the other person places a chocolate O. Keep taking turns; whoever gets 3 in a row wins!

# Bee-A-Mazed

A bucket of honey is on its way to this little bee's honey on Valentine's Day.

The maze is a complex network of orange lines forming a path through a white background. The path starts at a yellow bee with a bucket of honey in the top-left corner, labeled 'START'. The path winds through several hexagonal cells, each containing a red heart. The path ends at a pink bee with red hearts in the bottom-right corner, labeled 'FINISH'. The entire maze is enclosed in a thick orange border.
