The Four Seasons

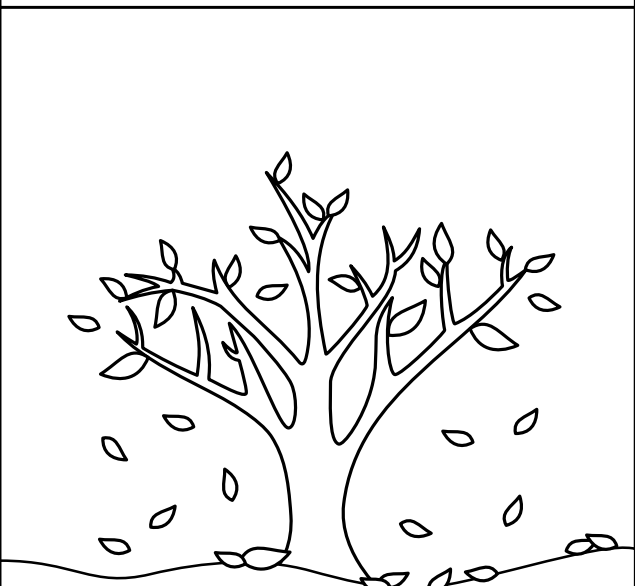

WINTER

SPRING

SUMMER

AUTUMN

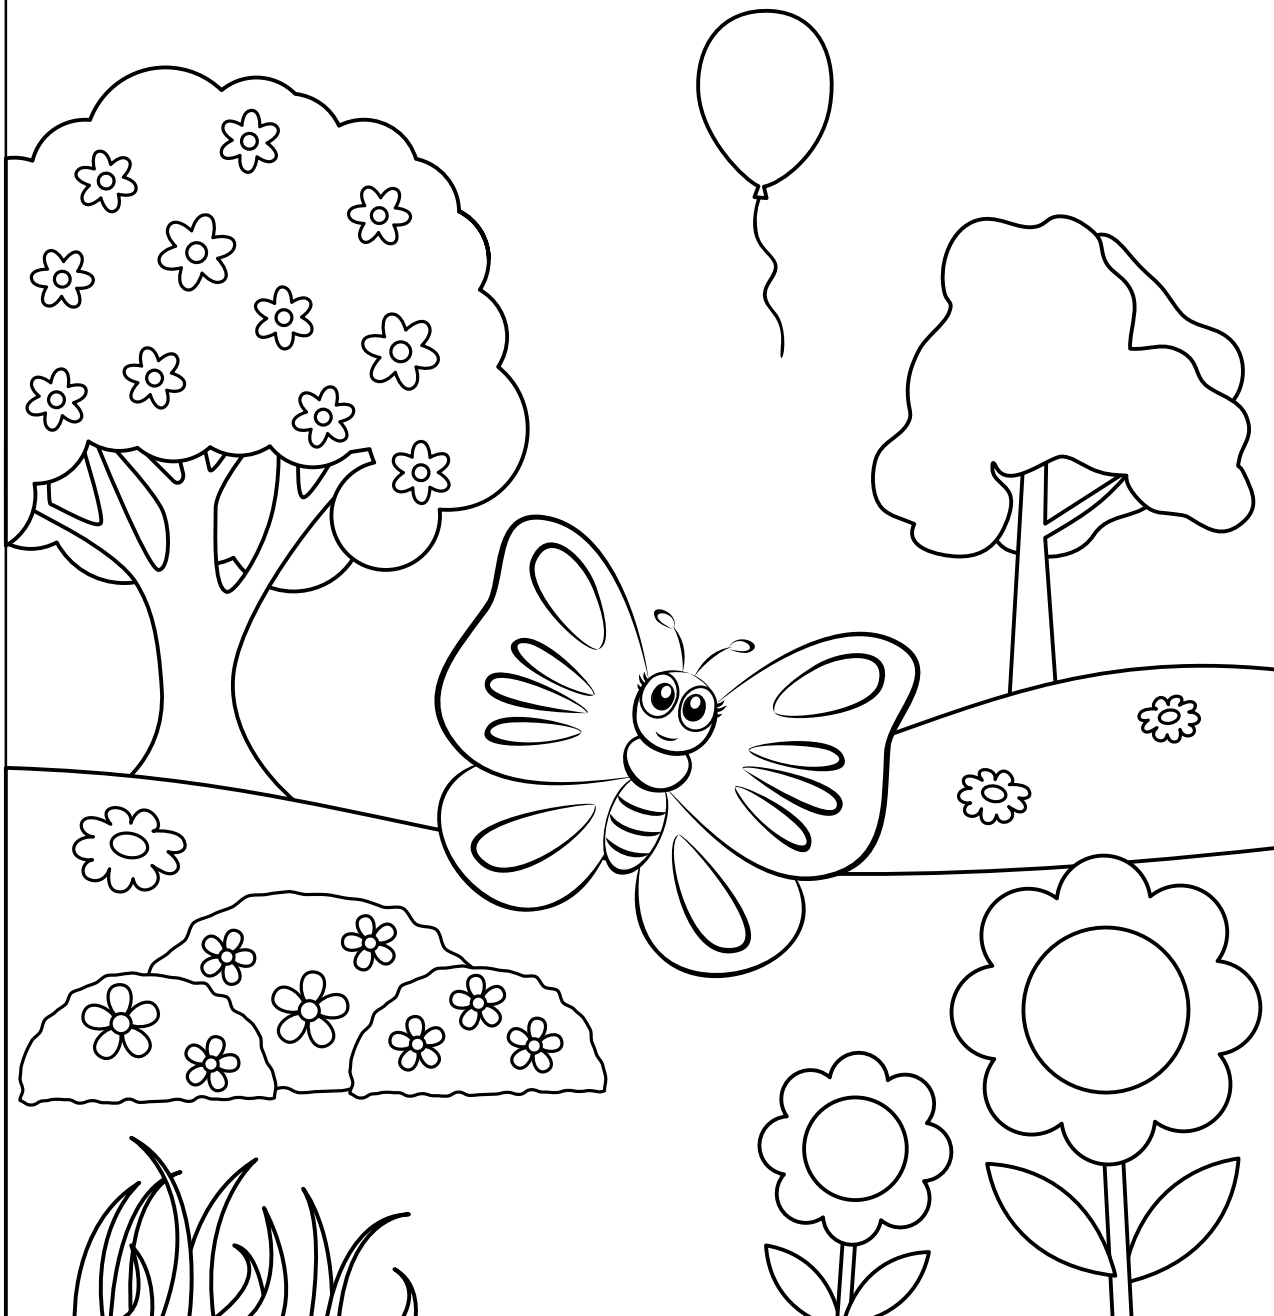

- We have different seasons because of the earth's constant movement around the sun.
- The closer a place on earth is to the sun, the warmer it will be.
- The farther away it is, the colder it will be.

Winter Season

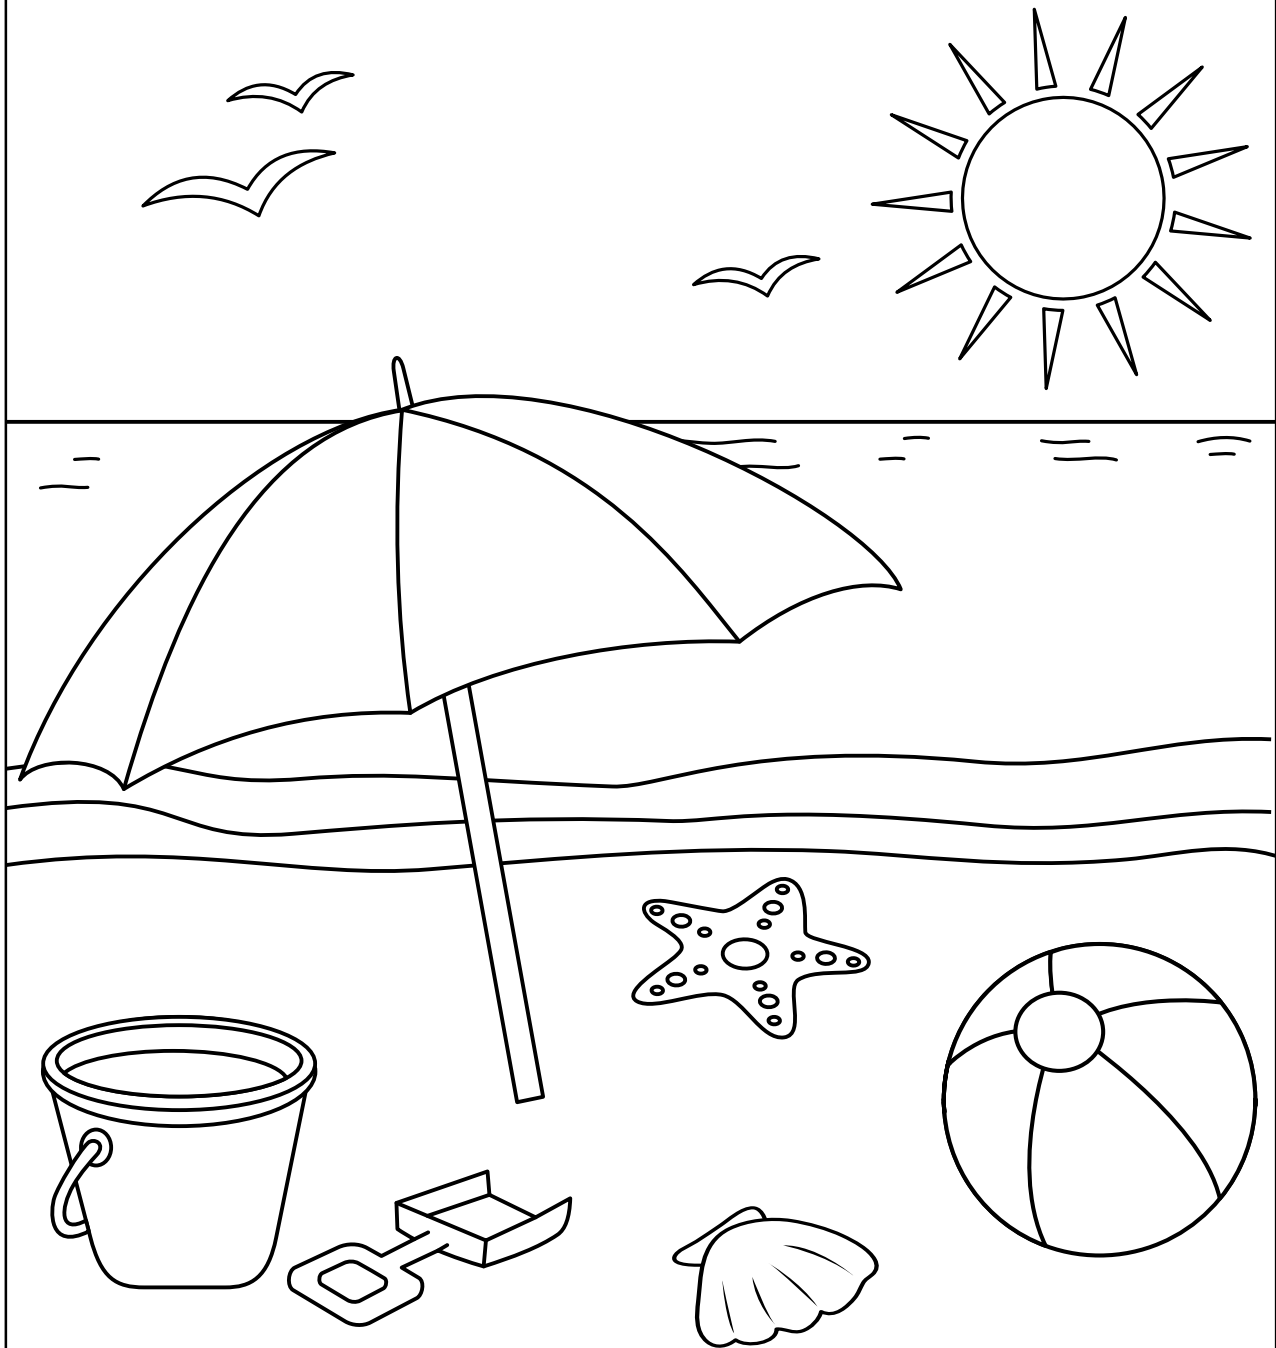

- Winter can be associated with snow and freezing temperatures.
- Some animals like bears and squirrels hibernate in wintertime.
- Nights are longer in the Winter.

Spring Season

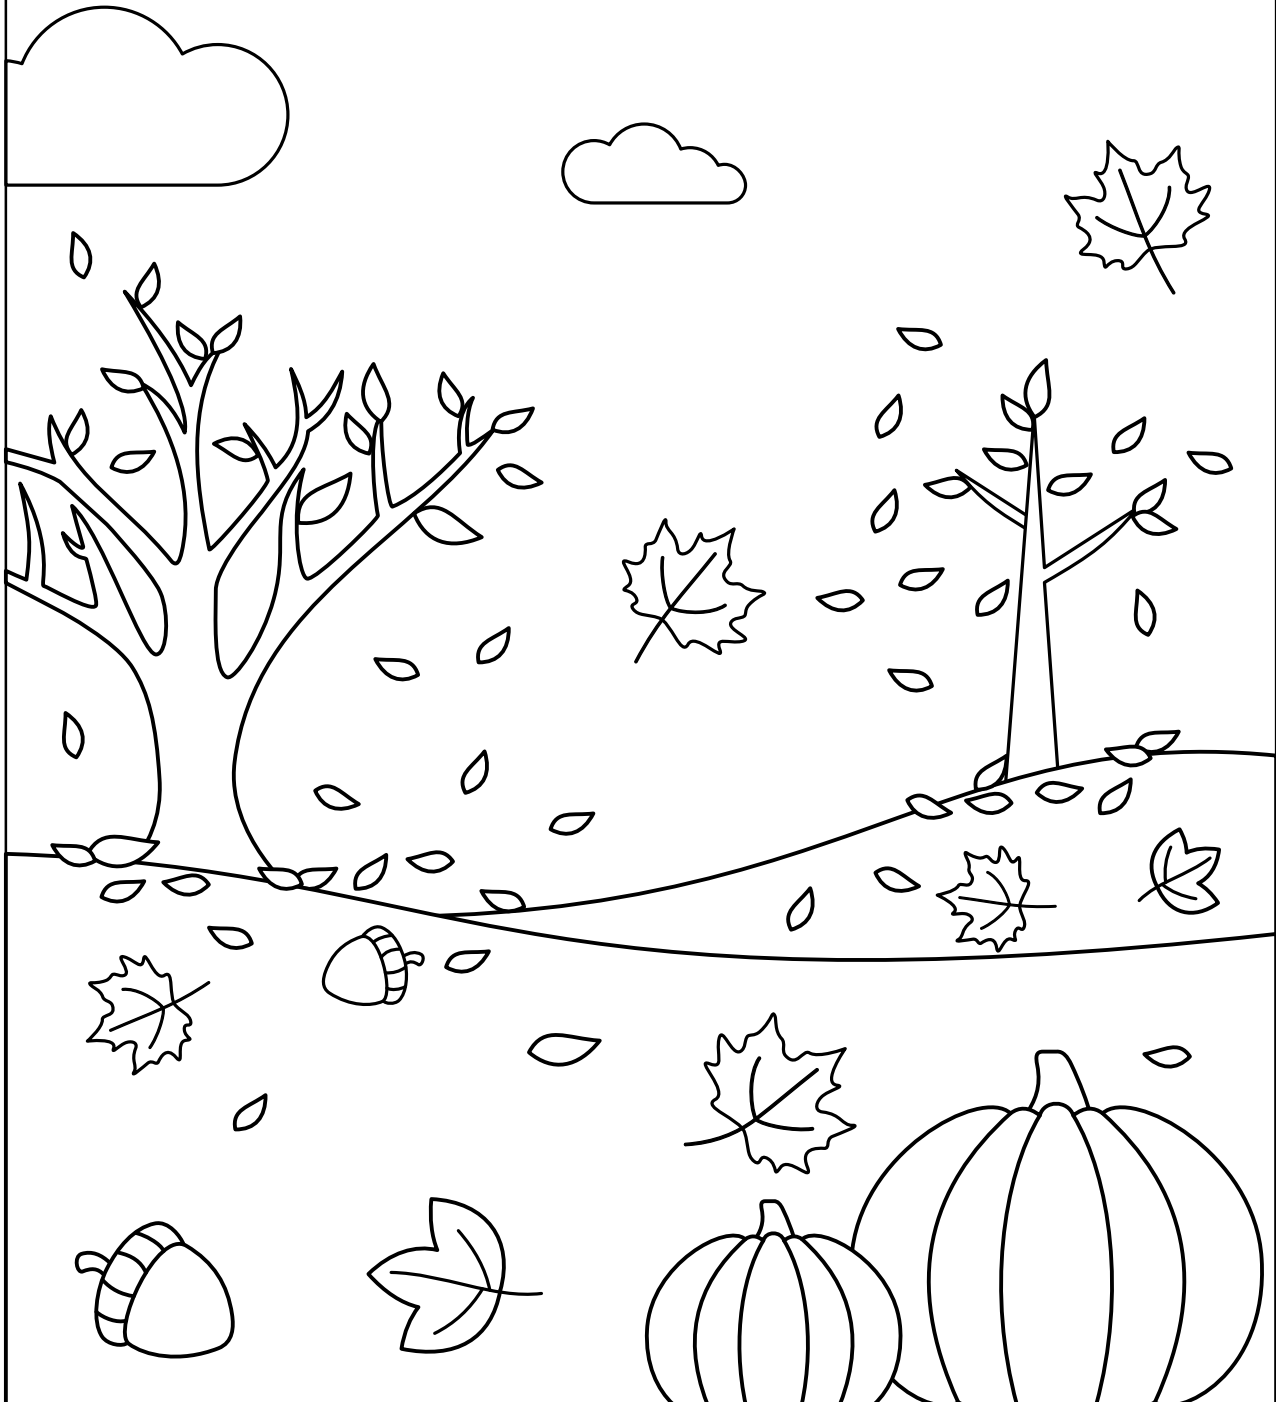

- Many trees, flowers, plants and bulbs begin to grow during the Spring.
- The weather in Spring is warmer and sunnier.
- Many animals have their babies in Spring.

Summer Season

- Summer is the hottest season and has the longest days of the year.
- People spend time outside and enjoying the summer activities on beaches.
- Many trees and other plants produce fruit during Summer.

Autumn Season

- In Autumn leaves change color and fall from the trees.
- Autumn (is also known as the fall,)
- Some animals collect food for winter comes.
