Procedure:

1. Hand out the main sheet and place it on the table

2. Explain to the students how to play.

Each box corresponds to one question. Each student has roll a dice **and move a piece.**

Ask the students to use make a sentence with a noun clause using the word in the space that they land on.

Examples: I don't know where she is. I wonder what time it is. I didn't hear what you said. Can you tell me where the library is?

If the answer is correct, when it is their turn, they can go on playing, if not they have to skip one turn.

The student who first finishes the **iter** from "FINISH to START" is the winner

Thank the students for coming to the lesson.
