

Procedure:

1. Hand out the main sheet and place it on the table
2. Explain to the students how to play.

Each box corresponds to one question. Each student has roll a dice **and move a piece.**

...

If the answer is correct, when it is their turn, they can go on playing, if not they have to skip one turn.

The student who first finishes the **iter** from “FINISH to START” is the winner

Thank the students for coming to the lesson.
