

Can, can't and prepositions dice game

Roll a dice three times and then answer the question that those numbers make in the table below. You will get one point for saying "No, I can't" or three points for saying "Yes, I can" **and then doing it**. However, you will get **no points for saying "Yes, I can" and then not doing it**. You can use the walls and other parts of your body apart from your hands to hold the thing in place, but it must stay in place for 10 seconds and if it touches the floor or you use your hands in that time then you don't get any points.
