1. People vary greatly in the way they look and in their
personality. 2. We often think we can't tell someone's personality from the way they look. 3. For example, we may expect a thin person to be quiet or shy while we may expect a fat person to be jolly and friendly. 4. We should remember, however, that we can't judge a book by its cover, and we can't judge a person by their appearance.
