Dubai's **history** is **rooted** in their Arabian **deserts**. Before cities were build, these **vast** lands were just **deserts**, and they were **traversed** for **centuries** by its earliest **inhabitants**: the nomadic Bedouin.

**Nomadic** in nature, leaving very little **trace** other than footprints in the sand as they **traversed** the desert, the Bedouin **historically** had a very low **impact** on their surrounding natural **environment**.

What they did leave behind is their stories, which have been passed on through the generations in the form of poetry, music, and traditional performances.

Match up the words to their definitions

rooted	one-hundred years
vast	large
Deserts	where nothing grows
traversed	started
Century	in the past
Inhabitants	people living in a place
nomadic	travelled
trace	people who move
Historically/history	effect/change
impact	nature around us
Environment	something left behind

## Match up the sentences

- 1) They **traversed** the desert
  - 2) **Nomadic** in nature
  - 3) Dubai's **history** is **rooted** in their Arabian **deserts**
  - 4) The Bedouin **historically** had a very low **impact** on their surrounding natural **environment**.
  - 5) Before cities were build, these **vast** lands were just **deserts**
- 
- A) Dubai's past being in their deserts.
  - B) The large areas were empty, in the time before cities.
  - C) They didn't do much damage to the world around them.
  - D) They travelled through places where nothing grows.
  - E) Travelling is their lifestyle
