## Imperative Snowflake

**Make a snowflake by following the instructions below**

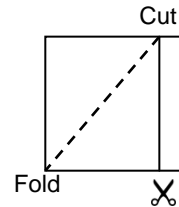

First, you need to make a square.

Take a piece of paper and fold it to make a square.

Fold the paper along the dotted line.

Cut off the extra piece of paper.

Now, you have a square.

Fold the square paper in half.

Fold it again.

Fold it again.

Fold it one more time if it is not too difficult.

Take some scissors.

Cut some triangles like this.

Do not cut the folded side completely.

Open the paper.

Now, you have a beautiful snowflake.

### Ideas for your snowflake

Hang your snowflake in the classroom.

Tape your snowflake to the window.

Dab some glue on the edges of the snowflake and sprinkle on some glitter. Let it dry. Then shake off the excess glitter.

Make small snowflakes and glue them to some folded paper to make a Christmas card.
