That's the Right Answer

In this group activity, students practice asking Wh-questions in various tenses.

Before class, make one copy of the worksheet for each group of four students and cut the worksheet into cards as indicated.

Procedure

Divide the class into groups of four.

Give each group a set of cards.

Ask the students to shuffle the cards and place them in a pile, face down on the table.

The first student begins by picking up a card and asking a question that will make someone in group answer with the word or phrase on the card.

The student, who answers with the word or phrase, keeps the card and wins one point.

The next student picks up a card, and so on.

The student with the highest number of points at the end is the winner.
