## Clothing Quiz

Here is a fun class quiz to help students learn or revise vocabulary related to clothes and fashion.

Before class, make one copy of the worksheet for each group of four.

### Procedure

Divide the class into teams of four and give each team a copy of the worksheet.

Students select a secretary from their team who will write the answers to the questions.

Read out each question in turn to the class. Give the students time to discuss the answer in their teams. The secretary then writes the answer down on the worksheet.

Then, move onto the next question and so on.

When all the questions have been answered, tell the secretaries to swap their worksheet with another team for marking.

Assign each team with a number or letter and make a score board. Invite teams to read out their answers to the class.

Teams win one point for each correct answer. In some questions, a set of answers is required. To win a point, teams must be able to supply a complete set of answers.

The team with the most points at the end of the quiz wins.

As an alternative, you could make each question worth two points by adding an extra point for spelling.
